## About This Manual

The service procedures in this supplement are unique to the 1985 GL1200L. In those instances where the Interstate or Aspencade model procedures apply, refer to the base service manual.

The GL1200L Service Manual Supplement is divided into 14 sections. The first page of each section is marked with a black tab that lines up with the tabs on this page. The section symbols printed on the tabs also appear at the top of each page of the section so you can quickly get to where you want to be in the manual.

Page one of sections 1-13 lists the contents of each section and gives specific page references. Section 14 is an overall index for this supplement. A Wiring Diagram is located inside the back cover.

In sections 10 through 13, "Service Information" follows each contents; be sure to read those few lines before you start any procedure to avoid any difficulty once you're in the middle of a job. In most cases a torque reference drawing will be in Service Information. Torque values are given in the metric standard newton-meters (N.m) and also in foot-pounds (ft-lb). (See page 1-6 for a specific explanation of the use of metric equivalents.) A system troubleshooting list follows the torque reference drawing, and then the service procedures begin.

Sections 1-3 apply to the whole motorcycle, while sections 4-13 describe parts of the GL1200L grouped according to location. Be sure to refer to the Maintenance Schedule (Section 3) whenever a GL1200L is brought in for service. Use the schedule to know what the vehicle needs to stay in peak operating condition and within EPA-established emissions standards. The first scheduled maintenance is especially important since it compensates for the initial wear that occurs during the break-in period.
