FORD BRONCO

854320000000

The original Ford Bronco could be considered to be ahead of its time. It was Ford's first compact SUV vehicle, a category which has become so popular today. The Bronco remained basically unchanged from 1966 to 1977, and has extended to 5 generations. Based on a 90 inch wheelbase, the first Bronco was intended as an off-road multi-purpose truck with 4 wheel drive. The base price was under \$2,200 when it was introduced. The original Bronco offered a long list of options, but still remained a very basic vehicle. It was designed with a club sheet, and unlike the Mustang, it did not use an existing platform. There were two engines to choose from, a straight 6 cylinder or a more powerful small block V-8, and three body styles, a wagon, a half-cab or a roadster. Other options included such things as a swing-a-way spare tire and bench-style back seat.

Le premier Ford Bronco était en avance sur son temps. Ce fut le premier VUS compact de Ford, une catégorie devenue extrêmement populaire de nos jours. Le Bronco est essentiellement resté inchangé de 1966 à 1977, et couvre 5 générations. Basé sur un empattement de 230 cm, le premier Bronco était prévu au départ pour être un camion multi-usage tout terrain à 4 roues motrices. À son lancement, son prix de départ était inférieur à 2 200 \$. Le Bronco d'origine avait une longue liste d'options, mais n'était toujours resté un véhicule très basique. Il a été conçu de A à Z et, contrairement à la Mustang, il n'était pas basé sur une plateforme existante. Deux moteurs étaient à choisir, un 6 cylindres simple ou V8 à petit bloc puissant et trois styles de carrosserie (break, cabine monoplace décapotable ou roadster) étaient offerts. Les autres options incluaient une roue de secours à bascule et un siège arrière de type banquette.

El Bronco se mantuvo básicamente sin cambios desde 1966 hasta 1977, y se extendió a 5 generaciones. El precio base era inferior a \$2,200 cuando hizo su debut. El Bronco original ofrecía una larga lista de opciones, pero aún seguía siendo un vehículo muy básico. Fue planeado a partir de un nuevo diseño, y al contrario que el Mustang, no hizo uso de una plataforma existente. Tenían dos motores para elegir, uno de 6 cilindros en línea o un motor más potente V-8 de bloque pequeño, y tres estilos de carrocería, tipo wagon, tipo media cabina o descapotable. Otras opciones incluían cosas tales como el neumático de repuesto que se abate a un lado y el asiento trasero de estilo banco.
