Broughton, Linda Walker, 2016-12-05 Despite the fact that there are around 1.2 million powered two wheelers PTWs within the United Kingdom riders are often misconceived as living at the edge of society however this is often far from the truth Riding a PTW is a high risk activity and those who ride are often perceived as being risk junkies but through an in depth exploration of this leisure activity Motorcycling and Leisure explains that riders ride because they enjoy it and do not

necessarily enjoy the risk involved The book presents a range of contemporary research on riders and how they find enjoyment The book further explores the rider goal of enjoyment and utilises Fuller s task homeostasis theory along with Csikszentmihalyi s theory of flow to develop an understanding of the interaction between risk and goals In conclusion it develops principles of interventions with the aim of guiding intervention design and reducing the number of motorcycle crashes *Electronic Organ Handbook* H.
