

## 2.2 Unsetting your system

Unsetting your system causes the detectors not to trigger an alarm when violated. When you enter the premises, the Entry Delay begins to count down. You must unset the system within the Entry Delay time to prevent the system from triggering an alarm. The unsetting operation will be followed by a local message announcement (if defined).

**Note:** If an alarm occurred in the system, it is recommended to leave the premises. Only after police investigation should you consider that the intruder is no longer on your premises and you can re-enter. In special cases (if programmed by your engineer) setting the system after an alarm might require an Engineer code. For more information refer to your engineer
