### **Rebuilding resilient and sustainable agriculture in Somalia (Full report)**

Food and Agriculture Organization of the United Nations,2018-11-02 This report documents the pressures on Somalia s livestock and crop subsectors over the years but notes that there is a cause for optimism thanks to the country s resilience and resources These include a variety of agroecological zones and vast tracts of arable land and areas suitable for livestock production which in turn can support markets export trade and overall growth

### **Global Nutrition Report 2016**

International Food Policy Research Institute (IFPRI),2016-06-14 Few challenges facing the global community today match the scale of malnutrition a condition that directly affects 1 in 3 people Malnutrition manifests itself in many different ways as poor child growth and development as individuals who are skin and bone or prone to infection as those who are carrying too much weight or whose blood contains too much sugar salt fat or cholesterol or those who are deficient in important vitamins or minerals Malnutrition and diet are by far the biggest risk factors for the global burden of disease every country is facing a

serious public health challenge from malnutrition The economic consequences represent losses of 11 percent of gross domestic product GDP every year in Africa and Asia whereas preventing malnutrition delivers 16 in returns on investment for every 1 spent The world s countries have agreed on targets for nutrition but despite some progress in recent years the world is off track to reach those targets This third stocktaking of the state of the world s nutrition points to ways to reverse this trend and end all forms of malnutrition by 2030 *Agricultural, Biosystems, and Biological Engineering Education*
