Arts Architecture Case Study Houses:

Modern California Houses Esther McCoy, 1962 Comprises the Case study house program of the magazine arts and architecture Includes brief biographical notes on the architects

Case Study Houses Elizabeth A. T. Smith, 2006 Because most opinion both profound and light headed in terms of post war housing is nothing but speculation in the form of talk and reams of paper it occurs to us that it might be a good idea to get down to cases and at least make a beginning in the gathering of that mass of material that must eventually result in what we know as house post war

Case Study Houses Marco Hemmerling, Markus Graf, 2016 The Case Study House program ranks among the most influential and innovative projects in American architectural history of the post war period and has lost none of its fascination even today The experimental designs of renowned avant garde architects such as Richard Neutra Craig Ellwood Raphael Soriano and Eero Saarinen succeeded in presenting unique houses that completely redefined the concept of modern living 0The present publication interprets the Case Study Houses using the new digital tools that architects now have at their disposal and which make the projects accessible in a wholly different way While traditional documentation provides floor plans sections elevations and perspectives we are now achieving new insights into the concepts structure construction design and spatial effects of the houses by using 3D models BIM data and atmospheric visualization as well as advanced image processing It is even possible to download 3D models of some of the houses and try out novel approaches to individual projects Above all the book will serve as an inspiration for new architectural ideas and promote the use of these technologies in the design visualization and realization of such concepts in creative and innovative ways

The Presence of the Case Study Houses, 2004-01-01 Since their origins over half a century ago the Case Study Houses have ranked among the classics of architectural modernism In a journey into the present reality of the Case Study Houses the two authors of this book have systematically visited and photographed the houses and their owners Viewing these projects through the lens not only of practicing architects teachers and critics but also of representatives of Old Europe confronting the achievements of the New World they describe and elaborate the stories of some of the most thrilling residential projects of the last century

Blueprints for Modern Living Elizabeth A. T. Smith, 1989 This book documents Arts Architecture magazine's sponsorship of some of the most important architects of the region and the generation reflecting an unprecedented commitment to reinventing the house as a way of redefining living

Case Study Houses Elizabeth A. T. Smith, 2019 Le programme Case Study House repr sente un vnement sans pr cedent dans l'histoire de l'architecture am ricaine Chantre du modernisme John Entenza en fut la force motrice et appela certains des plus grands noms de l'architecture dont Richard Neutra Charles et Ray Eames ou Eero Saarinen y participer Cette r trospective c lbre chacun des 36 prototypes de maison travers une documentation compl te agr ment e de plans croquis et photos

Blueprints for Modern Living Elizabeth A. T. Smith, Esther McCoy, 1999 Includes eight main essays as well as contributions from Elizabeth A T Smith this volume

documents the Case Study House Program carried out between 1945 and 1966 where 36 experimental prototype houses were built by leading Californian architects

Chicagoland Dream Houses Siobhan Moroney, 2024-01-23 Chicagoland Dream Houses is an engaging addition to the growing body of scholarship concerning Chicago's twentieth century residential landscape characterized by a diverse group of architects and builders Michelangelo Sabatino coauthor of *Modern in the Middle Chicago Houses 1929-1975*

The Modern Steel House Neil Jackson, 2016-03-23 This book provides a comprehensive survey of Modern Movement houses constructed with steel frames Arranged chronologically and thematically it traces the development over the last seventy years of steel houses in Europe Australia and the United States with special reference to London Paris Sydney and Los Angeles and to the work elsewhere of Mies van der Rohe Philip Johnson and Jean Prouvé Examples of steel houses from around the world demonstrate that steel structures can provide a better quality of life within a cleaner lighter home environment

Case Study Homes Peter Bialobrzeski, 2009 An ironic take on the Case Study House Program initiated in 1945 by Arts and Architecture magazine in an effort to develop low priced single family homes by architects such as Richard Neutra and Charles and Ray Eames German photographer Peter Bialobrzeski's Case Study Homes was shot at the Baseco compound a squatter camp near the Port of Manila which is home to an estimated 70 000 people As Bialobrzeski was considering the series startling images of provisional structures fashioned from slats cardboard corrugated metal and other cast off materials and refuse Lehman Brothers Bank collapsed and the media declared a global economic crisis These recent events lend resonance to Bialobrzeski's images which recall the photographs of impoverished rural Americans commissioned by the Farm Security Administration in the 1930s Conceived as a sketchbook for a larger project the images evidence the human will to survive and a profound resourcefulness

Case Study Houses. Ediz. inglese, francese e tedesca Elizabeth A. T. Smith, Julius Shulman, Peter Goessel, 2002 Modernist experimental homes Prototypes for everyone The Case Study House program 1945-66 was an exceptional innovative event in the history of American architecture and remains to this day unique The program which concentrated on the Los Angeles area and oversaw the design of 36 prototype homes sought to make available plans for modern residences that could be easily and cheaply constructed during the postwar building boom The program's chief motivating force was Arts Architecture editor John Entenza a champion of modernism who had all the right connections to attract some of architecture's greatest talents such as Richard Neutra Charles and Ray Eames and Eero Saarinen Highly experimental the program generated houses that were designed to re define the modern home and thus had a pronounced influence on architecture American and international both during the program's existence and even to this day TASCHEN brings you a monumental retrospective of the entire program with comprehensive documentation brilliant photographs from the period and for the houses still in existence contemporary photos as well as extensive floor plans and sketches
