New Materials for Next-Generation Commercial Transports National Research Council, Division on Engineering and Physical Sciences, National Materials Advisory Board, Commission on Engineering and Technical Systems, Committee on New Materials for Advanced Civil Aircraft, 1996-04-15 The major objective of this book was to identify issues related to the introduction of new materials and the effects that advanced materials will have on the durability and technical risk of future civil aircraft throughout their service life. The committee investigated the new materials and structural concepts that are likely to be incorporated into next generation commercial aircraft and the factors influencing application decisions. Based on these predictions the committee attempted to identify the design characterization monitoring and maintenance issues that are critical for the introduction of advanced materials and structural concepts into future aircraft
