mosaic of subjective often contradictory interpretations and discrepant applications that prohibit a narrow one dimensional approach This book argues that to uncover this complex reality and achieve a more accurate understanding of Islam as a lived religion it is imperative to consider Islam from the point of view of human beings who practice their faith Consequently this book provides an important contribution through a detailed ethnographic study of two contemporary Sufi communities Although both groups shared much in common there was a fundamental almost perplexing range of theological convictions and ritual implementations This book explores the mechanism that accounts for such diversity arguing for a direct correlation between Sufi multiformity and the agency of the spiritual leader the Shaikh Empirical research regarding the authority by which Shaikhs subjectively generate legitimate adaptations that shape the contours of religious belief are lacking This study is significant because it focuses on how leadership operates in Sufism highlighting the primacy of the Shaikh in the selection and appropriation of inherited norms National Spelling Bee 1995 Local Pronouncer Guide ,1994
