*Machines And Deep Learning Demystified, From Steps To Expert Practice* Aloka Natha, Nishanta Ranjan Nanda, Subhasis Mohapatra & Supriya Sahoo, 2026-01-08 *Machines and Deep Learning Demystified From Steps to Expert Practice* offers a structured and accessible exploration of Artificial Intelligence guiding readers from fundamental concepts to advanced problem solving techniques. The book begins by explaining the foundations of intelligent machines introducing the concept of intelligent agents their interaction with environments and the principles of rational behavior that govern intelligent decision making. Readers gain clarity on different types of environments and the internal structures that enable machines to perceive reason and act effectively.

*Potential of AI to Replace Teachers' Expertise: Ethics and Challenges* Khan, Shahnawaz, Pringuet, Philippe, 2025-10-16 As artificial intelligence AI advances its integration into education sparks excitement and concern regarding its potential to replace human teacher expertise. While AI tools can personalize learning, automate administrative tasks and provide real time feedback substituting humans raises ethical questions and practical challenges. Teaching also involves empathy critical thinking and social interaction which are difficult for current machines to replicate. This dynamic begs for critical examination of how far AI should be allowed to go in educational settings and whether it can or should replace the human elements of teaching. *Potential of AI to Replace Teachers Expertise Ethics and Challenges* explores the ethical considerations practical strategies and potential challenges associated with the integration of AI tools into the classroom. It provides educators with the necessary knowledge and tools to effectively leverage AI to enhance the teaching and learning experience for students and educators. This book covers topics such as ethics and law assessments and data science and is a useful resource for educators engineers policymakers academicians researchers and scientists.

*Impacts of AI on Students and Teachers in Education 5.0* Mobo, Froilan Delute, 2025-01-23 The integration of artificial intelligence AI in education is reshaping the learning landscape offering personalized and adaptive experiences that cater to individual student needs. In the context of Education 5.0 which emphasizes a human centered approach AI has the potential to enhance both teaching and learning by automating administrative tasks providing real time feedback and supporting customized learning pathways. This not only improves educational outcomes but also allows teachers to focus on more meaningful interactions with students fostering critical thinking and creativity. As society increasingly relies on digital tools the responsible use of AI in education is crucial for preparing students to thrive in a technology driven world while ensuring that learning remains accessible inclusive and engaging. *Impacts of AI on Students and Teachers in Education 5.0* explores the transformative effects of AI within the context of Education 5.0. It focuses on how AI enhances learning experiences and supports both students and teachers in a human centered educational framework. Covering topics such as classroom management educational psychology and students with disabilities this book is an excellent resource for educators school administrators policymakers researchers academicians and more.

*Skill-oriented Task Sequencing in an Intelligent Tutor for Basic Algebra* David McArthur, Rand Corporation, 1989

*Writing Teachers Writing Software* Paul LeBlanc, 1993 Presenting a comprehensive look at and critical history of computer aided composition (CAC). This book focuses on faculty development of software for composition studies. The book describes who is building these writing tools, how they are doing so, how their work is being received, and what is likely to affect their efforts in the future. Chapters in the book are: 1. Introduction, 2. Understanding Computer Software, 3. The Who and How of CAC Software Development, 4. Forces that Impact CAC Software Design, and 5. CAC Software Design and the New Literacy. A brief description of 13 software programs mentioned in the book and samples of program interfaces are appended. Contains over 200 references. RS      **LSC Trigonometry: Revised Third Edition** John D. Baley, Gary Sarell, John Baley, 2002-06-26 This text is designed for an in-depth course in trigonometry. Although the development of trigonometry begins on page one, the authors realize that many students may have completed algebra and geometry courses some time ago. Therefore, they have included algebra and geometry reminders throughout the text where they know from their teaching experience that many students need help in recalling ideas that are necessary to develop trigonometry. While it assumes no previous knowledge of trigonometry, this book shows how trigonometry can be used in many fields. It also develops algebra skills so that students will be thoroughly prepared to continue their study of mathematics and science. The use of graphing calculators has been incorporated throughout the text to reduce the labor of calculations and to expand the students' understanding of concepts and give students the opportunity to explore relationships.
