

Quick Start Guide

We know you're excited about owning an ASKO dishwasher and you're anxious to get started, so here's a brief summary of the operation procedures. The page references in this Guide refer to the *Use and Care Guide*. To get the most out of your dishwasher's features, we recommend that you read the *Use and Care Guide*.

THE CONTROL PANEL

Model 1805 has a touchpad control panel, as illustrated below. To turn the power on, press the button on the far left of the control panel. To select a wash program or option, simply press the appropriate touchpad. When you press a touchpad, a red indicator light at the upper left of the touchpad glows to show that you selected that program or option. After you've selected the desired wash programs and options, press Start. At this point, the indicator lights will flash rapidly, alternating from left to right, to show that the dishwasher is ready. Simply close the door securely to start the machine.

On/Off Control

Press this button to turn power to the machine on and off.

Indicator Lights

These lights glow red to indicate which program and options you have selected.

Rinse Aid Indicator

Glow red when the rinse aid dispenser needs to be refilled.

Touchpad Controls

Press these touchpads to select programs and options.

Start

After you've selected the desired wash program and options, press this touchpad and close the door to start the dishwasher.

Note: When you press Start, the red indicator lights flash rapidly, alternating from left to right, to show that the machine is ready to start. The dishwasher will start when the door is shut completely.

WASH PROGRAMS AND OPTIONS

Your ASKO dishwasher has four wash programs as well as several other options specifically designed to reduce your energy costs and make your life easier. Press the On/Off button to turn the machine on, then select the desired program and option(s).

Wash Programs

Pans

For the heaviest soiled loads, such as pots, pans, casseroles, etc.

Normal

For normally soiled loads, such as plates, glasses, bowls, and lightly soiled pans.

Quick

For lightly soiled loads that are washed immediately after use. Items such as fine china and crystal can be washed in this program, but you should use the low temperature setting and turn off the Heat Dry. (Recommend 130°F)

Rinse

To rinse dishes that you plan to wash later that day.

Start

After you've selected the wash program and options, press Start. **The indicator lights will flash rapidly, alternating from left to right. This merely means the machine is ready.** Close the door securely to start the dishwasher. (See also "Understanding the Indicator Lights" on the next page.)

Options

Economy

When used with the low temperature settings, this option further reduces energy consumption without diminishing cleaning performance by lowering the water temperature in the prewash and main wash and extending the wash time.

Temp

Lets you select a high or low water temperature for the wash programs (except Rinse). (See "Temperature Options" on the next page.) The indicator light glows when it's on the high setting and remains off when set on low.

Heat dry

Activates the heating element during the drying cycle to dry the dishes faster.

Delay

Lets you delay running the dishwasher for five hours. After making your selections, press Delay then press Start and close the door. The machine will start on its own five hours later.

PROGRAM MEMORY

If you select the Pans or Normal wash program, the dishwasher retains the setting until you change them. So when you turn the machine on the next time, the indicator lights for the program and options you last used will be lit. Simply press Start and close the door. If you want to change the settings, press the touchpad(s) for the other program or options you want to use, then press Start and close the door.
