retirement calculations He tells the stories of Leonardo Fibonnaci the Italian businessman Benjamin Gompertz the gentleman actuary Edmund Halley the astronomer Irving Fisher the stock jock Paul Samuelson the economic guru Solomon Heubner the insurance and marketing visionary and Andrey Kolmogorov the Russian mathematical genius all giants in their respective fields who collectively laid the foundations for modern retirement income planning With baby boomers starting to hit retirement age planning for retirement income has become a hot topic across the country Author Moshe Milevsky is an internationally respected financial expert with the knowledge you need to assess whether you are ready to retire or not Presents an entertaining informative narrative approach to financial planning Understanding the ideas behind these seven foundation equations which Moshe Milevsky explains in a manner that everyone can appreciate will help baby boomers better prepare for retirement This is a book unlike anything you have ever read on retirement planning Think Suze Orman meets Stephen Hawking If you ever wondered what the point of all that high school mathematics was Moshe Milevsky s answer is So that you can figure out how to retire while you can still enjoy your money **The Publishers Weekly** ,1965
