## Spanish Literacy Centers:

**Lessons from a Dual Language Bilingual School** Tatyana Kleyn, Victoria Hunt, Alcira Jaar, Rebeca Madrigal, Consuelo Villegas, 2024-08-13 This edited book showcases the successes and challenges of starting and growing a fully bilingual school. Reflecting on the first 10 years of Dos Puentes Elementary School in New York City, it explores the evolution of the school through its four founding pillars: 1. bilingualism, biliteracy, and multiculturalism; 2. families as partners, leaders, and advocates; 3. investigations and hands-on learning; and 4. partnerships with universities, organizations, and the community. The chapter authors include families, teachers, school administrators, and university partners, centering the voices of those directly involved in the school community and highlighting key moments in the life of the school. At the end of each chapter, researcher commentary contextualizes these experiences within the wider literature and discusses implications and next steps for the field of bilingual education. This book will be of interest to pre and in-service teachers and school administrators, particularly those looking to develop bilingual programs in their own context.

**Rethinking Mexican Indigenismo** Stephen E. Lewis, 2018-05-01 Mexico's National Indigenist Institute (INI) was at the vanguard of hemispheric indigenismo from 1951 through the mid 1970s, thanks to the innovative development projects that were first introduced at its pilot Tseltal-Tsotsil Coordinating Center in highland Chiapas. This book traces how indigenista innovation gave way to stagnation as local opposition shifted national priorities and waning financial support took their toll. After 1970, indigenismo may have served the populist aims of president Luis Echeverría, but Mexican anthropologists, indigenistas, and the indigenous themselves increasingly challenged INI theory and practice and rendered them obsolete.

**The Literacy Center** Lesley Mandel Morrow, 2002 The value of small group instruction cannot be emphasized enough, but many teachers have found it difficult to manage, especially when class sizes remain large. Here is practical, theoretically sound guidance for language arts teachers from pre-K through grade 5 who want help setting up literacy-rich classrooms that support guided reading or other small group teaching. This new edition of The Literacy Center provides meaningful activities that extend small group instruction in both comprehension and word study. Supported by Dr. Morrow's extensive research in motivation theory and exemplary instruction, here are sound ideas that engage students collaboratively and independently. You can spend time teaching small groups of students, attending to their individual needs, all the while knowing the rest of your class will be independently engaged in real learning. The book is divided into two distinct parts. The first section gives the research background and rationale for using literacy centers. It provides the tools for thoughtful design and use of centers, along with helpful hints on how best to motivate students. The second section provides activities for modeling literature to interest
