Larisa A. Garski, LMFT, Justine Mastin, LMFT, 2021-05-04 Harnessing the power of fandom from Game of Thrones to The Legend of Zelda to conquer anxiety, heal from depression and reclaim balance in mental and emotional health. Modern mythologies are everywhere from the Avengers of the Marvel Cinematic Universe to The Wicked The Divine. Where once geek culture was niche and hidden, fandom characters and stories have blasted their way into our cineplexes, bookstores and consoles. They help us make sense of our daily lives and they can also help us heal. Psychotherapists and hosts of the popular Starship Therapise podcast Larisa A Garski and Justine Mastin offer a self help guide to the mental health galaxy for those who have been left out of more traditional therapy spaces. Geeks, nerds, gamers, cosplayers, introverts and everyone in between. Starship Therapise explores how narratives and play inform our lives, inviting readers to embrace radical self care with Westworld's Maeve and Dolores, explore anxiety with Miyazaki and leverage narrative therapy with Arya Stark. Spanning fandoms from Star Wars to The Expanse and The Legend of Zelda to Outer Wilds, readers will explore mental health and emotional wellness without conforming to mainstream social constructs. Insights from comics like Uncanny X Men, Black Panther, Akira, Bitch Planet and The Wicked The Divine offer avenues to growth and self discovery alongside explorations of the triumphs and trials of heroes, heroines and beloved characters from Supernatural, Wuthering Heights, The Lord of the Rings, The Broken Earth trilogy, Mass Effect, Fortnite, Minecraft, Buffy the Vampire Slayer and Star Trek. Each chapter closes with a mindfulness meditation or yoga exercise to inspire reflection, growth and the mind body fandom connection.

**Better Living, Better Dying** Lewis Tagliaferre, 2019-01-17 Better Living Better Dying Reconciling Freedom and Surrender in Aging. The aging baby boomer generation born from 1945 to 1965 poses a real challenge in aging services for themselves and their families. Many of them are not well prepared for the challenges coming their way. Neither are their children. Most people are so busy being human doings they have overlooked developing as human beings. You are never too old to begin the adult self development lessons in this book but it becomes more important during the second half of life. Maybe it is true that you cannot put young heads on old shoulders but perhaps you can put older heads on old shoulders. Eventually freedom must transition to surrender as the inevitable changes during aging take over. It takes special resilience to walk through the final portal to whatever comes after and these instructions help to pave the way. Each person must take the walk of life they are given but if you begin with the end in mind the trip can be a grand adventure with a happier ending. This book is chock full of information and instruction for lifelong self care based on professional research and therapy compiled by an accomplished senior who also is an experienced researcher and writer. As such the work is more practical and less theoretical although it is based in many professional sources. Organized into lessons and homework assignments it goes far beyond the usual content of most self help books dealing with aging and mortality. They address needs of the whole person that you are physical,
