Chapter 1

1. *Sound sequences.* Any word that conforms to the sound pattern of English is a correct answer. For example:

   Bliting: bl as in *blood, iting* as in *biting*

   Krame: kr as in *cream, ame* as in *aim*

   Swirler: sw as in *swim, irl* as in *girl, er* as in *rider*

   Kristclean: kr as in *cream, i* as in *pit, st* as in *street, clean* as in *clean*

   Atla: as in *atlas*

   Oxfo: ox as in *ox, fo* as in *foe*

   Existing English words as names of new products are also acceptable; for example, *Kleen* or *Clean* as the name of a laundry soap.

2. *Grammaticality judgments.* The following sentences are ungrammatical, but note that some judgments may vary across dialects:

   a. **Robin forced the sheriff go.*

      The word *to* is missing in front of the verb *go*. The verb *force* requires a *to* infinitive in the embedded clause.

   f. **He drove my house by.*

      Particles are preposition-like words that occur with verbs such as *look*, as in *look up the number* or *look over the data*. Particles can occur after their direct object: *look the number up; look the data over*. True prepositions do not behave this way. *He ran up the stairs* is grammatical, but **He ran the stairs* up is not. The *by* in *He drove by my house* functions as a preposition and may not occur after the direct object.

   g. **Did in a corner little Jack Horner sit?*

      You cannot turn a statement that begins with a prepositional phrase into a question. While you can form a question from *Little Jack Horner sat in a corner* with *Did little Jack Horner sit in a corner*, you cannot question the sentence *In a corner little Jack Horner sat*.

   h. **Elizabeth is resembled by Charles.*

      The verb *resemble* does not occur in passive sentences.

   k. **It is eager to love a kitten.*

      If the pronoun *it* refers to an animate (nonhuman) thing (e.g., a dog), the sentence is grammatical. If the word *it* is a "dummy subject," as in *It's easy to love a kitten*, the sentence is ungrammatical because the adjective *eager* must have a referential subject.

   l. **That birds can fly flabbergasts.*

      Flabbergast is a transitive verb: it requires a direct object. Compare *That birds can fly flabbergasts John.*

   n. **Has the nurse slept the baby yet?*

      The verb *sleep* is intransitive: it cannot take a direct object (in this case, *the baby*).

   o. **I was surprised for you to get married.*

      The passive participle *surprise* cannot be followed by a "for . . . to" complementizer. This is true for a whole set of verbs (emotive verbs), including *amuse, annoy,* and *bewilder*. The sentence could be corrected in a number of ways, including changing *for* to *that* and changing *to get* into *got: I was surprised that you got married.*

   p. **I wonder who and Mary went swimming.*

      This "question" is derived from the more basic sentence *Someone and Mary went swimming*. The coordinate structure constraint (see Chapter 3 for mention, but not a complete description) requires
