Beyond Leviathan István Mészáros, 2022-02-22 A field defining masterwork this posthumous publication maps the evolution of the idea of the state from ancient Greece to today István Mészáros was one of the greatest political theorists of the twentieth century Left unfinished at the time of his death *Beyond Leviathan* is written on the magisterial scale of his previous

book *Beyond Capital* and meant to complement that work. It focuses on the transcendence of the state along with the transcendence of capital and alienated labor while traversing the history of political theory from Plato to the present. Aristotle, More, Machiavelli, and Vico are only a few of the thinkers discussed in depth. The larger objective of this work is no less than to develop a full edged critique of the state in the Marxian tradition and set against the critique of capital. Not only does it provide for the first time an all embracing Marxian theory of the state it gives new political meaning to the notion of the withering away of the state. In his definitive seminal work *Marxism* M. Sz. Ros seeks to illuminate the political preconditions for a society of substantive equality and substantive democracy. *Forthcoming Books* Rose Arny, 2003-04 *Engineered Materials Abstracts*, 1995-10 **The Condition of Education**, 1980 **Comparative Politics** Daniele Caramani, 2014 This exciting and authoritative introduction to comparative politics provides a range of perspectives, methods and theories at the heart of political systems around the world. Alongside explanations of the most important themes, students are presented with a wealth of empirical data to demonstrate similarities and differences in practice and to encourage research. This new edition takes account of the latest developments in the wake of democratic uprisings in North Africa and the Middle East and sees a much stronger emphasis on the financial crisis, paying particular attention to state finances and stressing the effects of the crisis on political attitudes and forms of participation. **Geographical Abstracts**, 1976 **Romance Languages Annual**, 1996 **Government Reports Announcements & Index**, 1995 *Resources in Education*, 1989 *Encyclopedia of World Problems and Human Potential* Union of International Associations, 1991 A sourcebook of information on over 13 000 recognized world problems, their perceived interconnections and the organizational human resources available to analyze, challenge and respond to them.
