The Birth and Unfolding of Phases in History Michael A. Susko, 2025-09-10 The Birth and Unfolding of Phases in History From Neolithic to World Pueblo and U S History brings together four major works into a single arc of human time Michael A Susko argues that the rhythm of history is not confined to the rise of empires but begins in the Neolithic with triadic 45 year generations that set the first phases of historical time in motion Using this framework the book explores Neolithic atlatl y k as a non empire model of symbolic and generational phasing This Initial work is in progress World history through Egypt Judah Israel Rome and the Medieval Modern era contrasting empire based and prophetic alternatives Ancestral Pueblo history as a more egalitarian path outside empire s mold U S history as a largely empire driven model tempered by ideals of freedom and equality This panoramic view balances empire and non empire trajectories showing how civilizations universalize their visions either through force or through sharing covenant and inclusion Written in accessible language yet grounded in rigorous patterning it invites readers to see history not as inevitable empire but as a set of choices that continue to shape our present and future **A Rosetta Key for U.S. History**

Michael A. Susko, 2023-12-21 This work explores a generational history from America s Colonial period to the United States of contemporary times A novel historical approach will rely on generational markers every 15th year rather than yearly astronomical dates This method will make history more accessible and its patterns more apparent Identified from cultures presented in an earlier volume the phasings are 1 Invisible Beginnings 2 Establishment and Testing 3 Novel Consolidation and Opening Up 4 Crisis and Creativity 5 Empire and Inclusion and 6 Rigidification or Renewal This history does not seek to hide or obscure the shadow side of America nor does it fail to present beauty and light especially during the 30s generational phase One discovery prompted by this generational time chart was to more fully consider the importance of New Spain in understanding U S history A second and related theme is inclusion of the Indigenous whose influence extends to all phases of American history Come journey with us and experience historical events and people s lives generation by generation and see how they fit into historical phases Such an awareness the author contends will help us to make the generational choice of our times *Generational Mapping Through Phases* Michael A. Susko, 2025-05-25 In *Generational Mapping Through Phases Bridging Ancient Civilizations U S and Ancestral Pueblo History Complete Three*

Volume Edition the author presents a novel approach to understanding history through the lens of generational mapping which reveals distinct phases This comprehensive work explores the rise transformation and legacy of six important historical traditions Ancient Egypt Ancient Israel Ancient Rome Medieval Modern Europe U S History and the history of the Ancestral Pueblo peoples of the American Southwest Divided into three volumes the series introduces the theory that ancient civilizations U S history and Indigenous histories long viewed through static or compartmentalized frameworks can be studied instead as dynamic evolving processes marked by generational phases In brief they are 1 Invisible Beginnings 2 Establishment and Testing 3 Consolidation and Opening Up to outside influences 4 Crisis and Creativity 5 Universalizing and Inclusion and 6 Renewal or Rigidification The work redefines how we engage with the past weaving together archaeology anthropology and historical analysis to map the interconnectedness of civilizations and the generational forces that shape them From the achievements of Ancient Egypt to the enduring presence of the Ancestral Pueblo peoples the generational method offers fresh insight into how time identity and transformation shape the arc of human history This complete edition of Generational Mapping of World History is for readers seeking a deeper understanding of the structural rhythms that define civilizations across time including the living continuity of Indigenous peoples and their place in global history **American Pageant, Volume 2** David M. Susko, 2025-09-26 Bringing together seven volumes of research Michael A Susko presents a grand synthesis of astronomical biological and cultural evolution Using a logarithmic model he shows how the universe has unfolded in accelerating pulses from galaxies and planets to the rise of life and symbolic humanity This rhythm of time is then extended through the Neolithic tells and into recorded history where generational phases reveal cultures growing and transforming in their own natural cycles Three distinct measures of time logarithmic pulses triadic generational units and fifteen year

historical generations converge to reveal a patterned fabric of change Across billions of years and into the present moment the author demonstrates how time is not a smooth line but a structured unfolding marked by phases of complexity consciousness and cultural renewal The result is both a sweeping map of our past and a reflection on the nature of time itself its rhythms its surprises and its promise of transformations yet to come *American Pageant, Volume 1* David M.
