

## The American Revolution

The American revolution transpired in 1775. In 1765 Great Britain was in great debt caused by the seven-year war. Since they needed money quickly they started taxing the American colonies with an operation called "The Stamp Act". This ended poorly despite trying a second time. Both times they had to take down the taxes. By then Britain ordered 1000 troops to Boston to take control. With that, the tax on tea hadn't been taken down. Rebel groups started to burn vessels and buildings of Great Britain and of the ones who supported them. At some point, they started to dump tea of ships.

After that, Great Britain sent 3000 more troops causing Boston and Massachusetts to now be under the direct rule of Great Britain. The colonies all gathered with their best thinkers for their first continental congress. It consisted of John Adams, John Jay, George Washington, Samuel Adams, Patrick Henry, John Dickinson. They decided to tell the local militias to start arming. The British General Thomas Gage ordered 700 troops to the countryside to destroy stores of arms and ammunition controlled by the rebels in Concord. They set out in the middle of the night. Patriots like Paul Revere rode ahead to alert the rebels and give them time to prepare. Lexington was the place where the rebels met the British force.

At some point, someone shot. That shot which was "The shot heard around the world" marked the beginning of The American Revolution. The battle of Concord ended with the British under siege of the American Militiamen back in Boston. Col Benedict Arnold went to take British stronghold fort Ticonderoga. He was planning to get men on the way but found The green mountain Boys Lead by Ethan Allen. They wanted to work together but they each wanted to be in charge. In the end, the Ethan Allen won and lead the attack. The attack was complete with no resistance. For this loss, King George fired General Gage and hired General William Howe. The congress decided to make a proper army they would first have to place a commander in chief. George Washington was picked and sent to Boston where the siege was still happening on.

Trying to break out of the siege the British forces were planning to take Bunker hill. Before they did the information was intercepted. An American spy has now told the militia. They took a defensive position on Breed's hill and Bunker Hill. On June 17, 1775, British forces attack Bunker and Breed's hill. British forces tried to

The Civil War is often credited with giving birth to the modern American state. The demands of warfare led to the centralization of business and industry and to an unprecedented expansion of federal power. But the Civil War did more than that as Melinda Lawson shows it brought about a change in American national identity redefining the relationship between the individual and the government. Though much has been written about the Civil War and the making of the political and economic American nation this is the first comprehensive study of the role that the war played in the shaping of the cultural and ideological nation state. In *Patriot Fires* Lawson explains how when threatened by the rebellious South the North came together as a nation and mobilized its populace for war. With no formal government office to rally citizens the job of defining the war in patriotic terms fell largely to private individuals or associations each with their own motives and methods. Lawson explores how these interpreters of the war helped instill in Americans a new understanding of loyalty to country. Through efforts such as sanitary fairs to promote the welfare of soldiers the war bond drives of Jay Cooke and the establishment of Union Leagues Northerners cultivated a new sense of patriotism rooted not just in the subjective American idea but in existing religious political and cultural values. Moreover Democrats and Republicans Abolitionists and Abraham Lincoln created their own understandings of American patriotism and national identity raising debates over the meaning of the American idea to new heights. Examining speeches pamphlets pageants sermons and assemblies Lawson shows how citizens and organizations constructed a new kind of nationalism based on a nation of Americans rather than a union of states a European styled nationalism grounded in history and tradition and celebrating the preeminence of the nation state. Original in its insights and innovative in its approach *Patriot Fires* is an impressive work of cultural and intellectual history. As America engages in new conflicts around the globe Lawson shows us that issues addressed by nation builders of the nineteenth century are relevant once again as the meaning of patriotism continues to be explored.
