
MATH 110 Module 1 Exam

1. Define each of the following:

a) Observation.

When a study is conducted, "observation" is known as all the info gathered and/or observed for each element in the study.

b) Element.

In a study, the "element" is described as the individual and/or particular entry of the data set in which the data is being collected for. The data of the element will be collected, analyzed, and presented in a same manner to differentiate.

c) Variable.

According to module 1, a variable is defined as a "particular measurable attribute that the researcher believes is needed to describe the element in the study".

Answer Key

Define each of the following:

a) Observation.

a) An observation is all the information collected for each element in a study.

b) Element.

b) The element of a data set is simply the individual and unique entry in a data set about which data has been collected, analyzed and presented in the same manner.

c) Variable.

c) A variable is a particular, measurable attribute that the researcher believes is needed to describe the element in their study.

2. Explain statistical inference.
