Selling the Dream Jane Marie, 2025-02-04 Peabody and Emmy Award winning journalist Jane Marie expands on her popular podcast The Dream to expose the scourge of multilevel marketing schemes and how they have profited off the evisceration of the American working class. We've all heard of Amway, Mary Kay, Tupperware, and LuLaRoe, but few know the nefarious way they and countless other multilevel marketing MLM companies prey on desperate Americans struggling to make ends meet. When factories close, stalwart industries shutter, and blue-collar opportunities evaporate, MLMs are there ready to pounce on the crumbling American Dream. MLMs thrive in rural areas and on military bases, targeting women with promises of being their own boss and millions of dollars in easy income, even at the risk of their entire life savings. But the vast majority—99.7% of those who join an MLM—make no money or lose money and wind up stuck with inventory they can't sell to recoup their losses. *Selling the Dream* is an urgent and riveting exposé. Publishers Weekly starred review that reveals how these companies often owned by political and corporate elites such as the DeVos and the Van Andel families have made a windfall in profit off of the desperation of the American working class.

Little Bosses Everywhere Bridget

Read, 2025-05-06 A groundbreaking work of history and reportage that unveils the stranger than fiction world of multilevel marketing, a massive money-making scam and radical political conspiracy that has remade American society. Companies like Amway, Mary Kay, and Herbalife advertise the world's greatest opportunity: the chance to be your own boss via an enigmatic business model called multilevel marketing or MLM. They offer a world of pink Cadillacs, white-columned mansions, tropical vacations, and most precious of all: financial freedom. If that is you're willing to shell out for expensive products and recruit everyone you know to buy them and if they recruit everyone they know too, thus creating the multiple levels of MLM. Overwhelming evidence suggests that most people lose money in multilevel marketing and that many MLM companies are pyramid schemes. Yet the industry's origins tied to right-wing ideologues like Ronald Reagan have escaped public scrutiny. MLM has slithered in the wake of every economic crisis of the last century, from the Depression to the pandemic, ensnaring laid-off workers, stay-at-home moms, and teachers anyone who has been left behind by rising inequality. In *Little Bosses Everywhere*, journalist Bridget Read tells the gripping story of multilevel marketing in full for the first time, winding from sunny postwar California where a failed salesman started a vitamin business through the devoutly religious suburbs of Michigan where the industry built its political influence to stadium-size conventions where today's top sellers preach to die-hard recruits. MLM has enriched powerful people like the DeVos and Van Andel families, Warren Buffett, and President Donald Trump, all while eroding public institutions and the social safety net, then profiting from the chaos. Along the way, Read delves into the stories of those devastated by the majority-female industry: a veteran in Florida searching for healing, a young mom in Texas struggling to feed her children, a waitress scraping by in Brooklyn. A wild trip down an endless rabbit hole of greed and exploitation, *Little Bosses Everywhere* exposes multilevel marketing as American capitalism's stealthiest PR campaign.

cunning graft that has shaped nearly everything about how we live and whose ultimate target is democracy itself

Language Policies and (Dis)Citizenship Vaidehi Ramanathan,2013-08-07 This volume explores the concept of citizenship and argues that it should be understood both as a process of becoming and the ability to participate fully rather than as a status that can be inherited acquired or achieved From a courtroom in Bulawayo to a nursery in Birmingham the authors use local contexts to foreground how the vulnerable particularly those from minority language backgrounds continue to be excluded whilst offering a powerful demonstration of the potential for change offered by individual agency resistance and struggle In addressing questions such as under what local conditions does dis citizenship happen what role do language policies and pedagogic practices play and what kinds of margins and borders keep humans from fully participating The chapters in this volume shift the debate away from visas and passports to more uncertain and contested spaces of interpretation
