Elizabeth Graue,1993-01-01 This book looks at readiness from a different perspective arguing that we must move away from the readiness as child characteristic so prevalent in education and the popular press Instead readiness is explained as an idea constructed by parents teachers and children as they interact in their neighborhoods and communities Graue describes three communities in the same school district a middle class suburban town of professionals a rural working class community and a group of Hispanic working class families making their way through their children s kindergarten experiences In each setting the local meaning of readiness is the underlying theme in the actions taken by parents and their attitudes about their children s first public school experience   *Government Intervention and Suburban Sprawl* Michael Lewyn,2017-01-20 This book shows how suburban sprawl is at least partially a consequence of government spending and regulation and suggests anti sprawl policies that can make government smaller and or less intrusive Thus the book responds to the widely held view that automobile dependent suburban development also known as suburban sprawl is a natural result of the free market and of affluence and accordingly cannot be altered without massive government regulation   **The Politics of African-American Education** Kenneth J.
