American literary expression has left behind a rich legacy of traditionally canonized authors as well as material published in the growing periodical press that was of immediate importance to the population at the time. *Literary Research and the Era of American Nationalism and Romanticism* Strategies and Sources examines the resources that deal with the literature produced in the approximately 70 years of antebellum American literature. Covering all formats the volume discusses bibliographies indexes research guides archives special collections microform and digital primary text resources and how they are best utilized for a literary research project. Were the Framers motivated by their economic interests? How democratic was the Framers Constitution? Should we interpret the Founding using philosophical or strictly historical approaches? What traditions of political thought were most important to the Framers? In *Understanding the Founding: The Crucial Questions* Alan Gibson examines the preconceptions that scholars bring to these questions, explores the deepest sources of scholars' disagreements over them, and suggests new and thoughtful lines of interpretation and inquiry. Building on his previous work *Interpreting the Founding* which offers a synoptic overview of the competing perspectives that have informed modern scholarship on the Founders.
