number of different facets in this increasingly important realm. They have organized the work into five sections: the foundations of a new theory of multinational strategic management; a radically new examination of multinational strategic management; national competitiveness; the relatively under researched but increasingly important issue of environmental strategies of multinational enterprises; and the interactions between multinational strategic management and public policy. This outstanding collection, inspired by the occasion of Alan Rugman's 60th birthday, will be of great interest to scholars and practitioners of international business and management as well as to economists and lawyers.
