*Battle Hymn of the Tiger Mother* Amy Chua, 2011-01-11 The most talked about book of the year The Sunday Times bestseller The New York Times bestseller Der Spiegel bestseller **Battle Hymn of the Tiger Mother** Amy Chua, 2011-01 The Yale Law School professor and author of the best selling *World on Fire* traces the rewards and pitfalls of a Chinese mother's exercise in extreme parenting describing the exacting standards applied to grades music lessons and avoidance of Western cultural practices **World On Fire** Amy Chua, 2010-02-23 Amy Chua's remarkable and provocative book explores the tensions of the post Cold War globalising world As global markets open ethnic conflict worsens and democracy in developing nations can turn ugly and violent Chua shows how free markets have concentrated disproportionate often spectacular wealth in the hands of resented ethnic minorities market dominant minorities Adding democracy to this volatile mix can unleash suppressed ethnic hatred and bring to power ethno nationalist governments that pursue aggressive policies of confiscation and revenge Chua also shows how individual countries may be viewed as market dominant minorities a fact that could help to explain the rising tide of anti American sentiment around the world and the visceral hatred of Americans expressed in recent acts of terrorism Chua is not an anti globalist But in this must read bestselling book she presciently warns that far from making the world a better and safer place democracy and capitalism at least in the raw unrestrained form in which they are currently being exported are intensifying ethnic resentment and global violence with potentially catastrophic results **Motherhood, Childhood, and Parenting in an Age of Education** Maryellen Schaub, 2023-05-05 Motherhood as a celebrated yet underappreciated role is often thought of as a natural process something instinctive that we refine by watching our own mothers and others in our community We rarely think of motherhood as something that is time and culturally specific yet like culture itself it is socially constructed and both motherhood and childhood evolve over time With the rise in educational attainment of mothers in the American population the expectations associated with childhood increasingly include not just education but cognitive development and extracurricular activities as the partnership between parents and education intensifies in the joint project of human development of children Motherhood Childhood and Parenting in an Age of Education offers a new way to conceptualize the high demands of contemporary parenthood It traces the emerging narrative about the good mother changes in the underlying assumptions of what constitutes the good mother and the implications for the good childhood as education grows in institutional strength This book demonstrates that education is driving the formation of the parent and child roles in the dominant contemporary culture of the US although alternate models exist Education itself has expanded over time to become our largest social intervention defining behaviors and beliefs such as parental involvement in schooling the unengaged parent and the deficient student **The Racial Mundane** Ju Yon Kim, 2015-05 Winner Lois P Rudnick Book Prize presented by the New England American Studies Association Across the twentieth century national controversies involving Asian Americans have drawn attention to such seemingly unremarkable

activities as eating rice greeting customers and studying for exams While public debates about Asian Americans have invoked quotidian practices to support inconsistent claims about racial difference diverse aesthetic projects have tested these claims by experimenting with the relationships among habit body and identity In *The Racial Mundane* Ju Yon Kim argues that the ambiguous relationship between behavioral tendencies and the body has sustained paradoxical characterizations of Asian Americans as ideal and impossible Americans The body s uncertain attachment to its routine motions promises alternately to materialize racial distinctions and to dissolve them Kim s study focuses on works of theater fiction and film that explore the interface between racialized bodies and everyday enactments to reveal new and latent affiliations The various modes of performance developed in these works not only encourage audiences to see habitual behaviors differently but also reveal the stakes of noticing such behaviors at all Integrating studies of race performance and the everyday *The Racial Mundane* invites readers to reflect on how and to what effect perfunctory behaviors become objects of public scrutiny
