[Cars & Parts](#) ,2000-07      **935 Lies** Charles Lewis,2014-06-24 Facts are and must be the coin of the realm in a  
democracy for government of the people by the people and for the people requires and assumes to some extent an informed  
citizenry Unfortunately for citizens in the United States and throughout the world distinguishing between fact and fiction has  
always been a formidable challenge often with real life and death consequences But now it is more difficult and confusing  
than ever The Internet Age makes comment indistinguishable from fact and erodes authority It is liberating but annihilating  
at the same time For those wielding power whether in the private or the public sector the increasingly sophisticated control  
of information is regarded as utterly essential to achieving success Internal information is severely limited including  
calendars memoranda phone logs and emails History is sculpted by its absence Often those in power strictly control the flow  
of information corroding and corrupting its content of course using newspapers radio television and other mass means of  
communication to carefully consolidate their authority and cover their crimes in a thick veneer of fervent racialism or  
nationalism And always with the specter of some kind of imminent public threat what Hannah Arendt called objective  
enemies An epiphanic public comment about the Bush war on terror years was made by an unidentified White House official  
revealing how information is managed and how the news media and the public itself are regarded by those in power You  
journalists live in what we call the reality based community But that s not the way the world really works anymore We re an  
empire now and when we act we create our own reality we re history s actors and you all of you will be left to just study what

we do And yet as aggressive as the Republican Bush administration was in attempting to define reality the subsequent Democratic Obama administration may be more so Into the battle for truth steps Charles Lewis a pioneer of journalistic objectivity His book looks at the various ways in which truth can be manipulated and distorted by governments corporations even lone individuals He shows how truth is often distorted or diminished by delay truth in time can save terrible erroneous choices In part a history of communication in America a cri de coeur for the principles and practice of objective reporting and a journey into several notably labyrinths of deception 935 Lies is a valorous search for honesty in an age of casual sometimes malevolent distortion of the facts
