**Japanese Custom Motorcycles** Uli Cloesen,2013 Many books have been published about Japanese motorcycles but none has focused exclusively on the Japanese motorcycle based chopper bobber trike and quad custom bike scene until now. **The Book of the Ferrari 288 GTO** Joe Sackey,Nicola Materazzi,2013 This book covers the background conception design production and aftermath of the iconic Ferrari 288 GTO including the prototypes the early production cars the mainstream production cars in their various specification guises and the Evolution cars planned for the aborted Group B FIA race series. A comprehensive and beautifully illustrated look at a unique sports car [Vincent Motorcycles](#) Philippe Guyony,2021-10-28 Very few motorcycles have carved a mark in history like the Vincent V twin from its arrival in 1946 and up to the present day. On the road in club racing in drag races or competing for land speed records it dominated the motorcycle world leading to the famous catchphrase coined by the factory The World's Fastest Standard Motorcycle. It was a FACT NOT a slogan. Images such as that of Rollie Free in swimming trunks laying flat on his works modified Black Shadow and taking the American motorcycle land speed record at Bonneville in 1948 have now passed into posterity. In fact the big Vincent was so ahead of its time that it continued to compete successfully almost arrogantly in racing until the mid 1970s against modern bikes. No other motorcycle in the world can claim this kind of achievement. Following the premature ending of Vincent production Fritz Egli's 1967 Egli Vincent was the first chassis completely redesigned for a Vincent in 21 years. Egli's machine inspired numerous builders for several generations and this book traces holistically the story of all those motorcycles in the broad context of the classic and modern history of the Vincent. Understand how the flame of passion still burns brightly today.

NART enjoyed success on the race tracks of the US and Europe for three decades as well as financial difficulties and arguments with organisers to rightly become a legend. [Two Summers](#) Robert Ackerson,2022 Explores the Mercedes Benz W 196 R's historic roots development and races. Also its triumphs, struggles and disappointments as well as the spirited challenges from Maserati, Ferrari, Gordini and Lancia. Accompanying the text are hundreds of photos sourced from the legendary Daimler Archives.

**The Ambiguities of European Comic-book Bikers** David Walton,2024-08-19 In this book David Walton explores European comic book biker publications as a subgenre of popular culture. Using a multidisciplinary approach he reveals an intricate amalgam of ingenuity, irony and highly ambiguous humor. The creative resourcefulness of the comic book biker authors is seen to dramatize and celebrate the material existence of motorcycles and lifestyles while laughing at the foibles, inconsistencies, manias, fantasies and practices of those characterised as motorized flâneurs. At the core of Walton's analysis is the exploration of identity formation marked by tensions between

individualism and collective affinities undermined by egoism and competitiveness At the same time Walton argues that the storylines despite much comic invention caricature and exaggeration create resonances which hold up a distorted but highly revealing mirror to the multiple subgroups of people who ride motorcycles for pleasure The author also demonstrates how the implied biker readers of this subgenre confront comic representations of themselves which repeatedly undermine any positive self image they may possess Yet the comics are also seen to offer valuable insights into much broader cultural concerns ranging from subculture consumption habits in authenticity taste freedom risk and delinquency without forgetting other key aspects of cultural studies like class race and ethnicity gender sexuality and ecocriticism
