Ziccardi,1997-01-14 In case you haven't noticed there's a whole new retail and marketing scene out there. It's complicated, intensely competitive, and changing at a rate that's hard to keep up with. Malls and downtown strips are spawning theme stores such as Warner and Disney. At the Bloomingdale's courtesy counter in New York, staff who speak 30 languages are available to answer questions for international clientele. Wal-Mart has stores in China. Subway ads are considered chic. The game of brand management is getting grittier with the Coca-Colas and Calvin Kleins of the world overrunning the selling floors and knocking out the smaller niche players. And with all the merchandise tie-ins and pre-release advertising, you don't just go to the movies anymore; you attend cinematic happenings that are almost impossible to resist. Huge, costly marketing ploys are creating demand for things that didn't exist before and for things that consumers simply never thought they needed before. MasterMinding the Store helps you deal with the present situation and prepare for the future. How so? By imparting the creative insights of Donald Ziccardi, who has logged 20 years in marketing and advertising; his experience is woven into over 100 real-life anecdotes and case studies about media strategies, creative executions, and agency/client relationships that provide the combined wisdom of years and years of experience. In its down-to-earth, breezy style, MasterMinding the Store demystifies the marketing planning process with easy-to-follow steps. Teaches how to develop and deliver a powerful creative advertising message that meets marketing objectives. Tells how to quickly study your company, customers, and competition; then stake out a marketing position and set realistic budgets. Examines winning and losing principles of actual advertising, public relations, and sales promotion campaigns. Amid the new competitive climate, it's not enough to produce a quality product or a useful service. You have to exploit the power of the media and utilize new resources available in technology, research, and marketing to tap into the minds and hearts of a more demanding consumer and capitalize on shifting demographics and lifestyles. To do all this, you need your corporate constitution, the right marketing plan. Section 1 of the book details the marketing plan, including guidelines on how to get started, how to successfully use good and not-so-good news on the state of your company, and why it's important to know as much as possible about your consumer and your competitors. Section 2 is loaded with real-life accounts and behind-the-scenes anecdotes that teach valuable lessons on moving from the creative to the practical: media planning, sales promotion, point of purchase, personal selling, and public relations. The book concludes with an in-depth analysis of budgeting. Whether you are a seasoned professional or a newcomer in fashion, design, wholesaling, retailing, or advertising, or whether you are a small business owner or a student of business, MasterMinding the Store will help you cut marketing costs and maximize advertising dollars. It will help you achieve every retailer's ultimate goal: bringing the right products and services to customers where and when they want them. Praise for MasterMinding the Store: I highly recommend MasterMinding the Store.
