embedded in the business This book presents a conceptual model of banking 5 0 detailing its implementation in processes platforms people and partnerships of financial services organizations companies The last part of the book is then dedicated to future developments Of interest to academics researchers and professionals in banking financial technology and financial services this book also includes business cases in financial services     Agile Processes in Software Engineering and Extreme Programming – Workshops Maria Paasivaara,Philippe Kruchten,2020-09-23 This open access book constitutes the 6 research workshops the Agile Education and Training Track the Doctoral Symposium as well as a panel presented at XP 2020 the 21st International Conference on Agile Software Development which was held during June 8 12 2020 The conference was planned to take place at the IT University of Copenhagen Denmark Due to the COVID 19 pandemic the conference was held online In 2020 the following six workshops took place Third International Workshop on Software Intensive Business Eighth International Workshop on Large Scale Agile Development Second European Symposium on Serverless Computing and Applications Second International Workshop on Agile Transformation First International Workshop on Agility with Microservices Programming Third International Workshop on Autonomous Agile Teams XP is the premier agile software development conference combining research and practice It is a unique forum where agile researchers practitioners thought leaders coaches and trainers get together to present and discuss their most recent innovations research results experiences concerns challenges and trends XP conferences provide an informal environment to learn and trigger discussions and welcome both people new to agile and seasoned agile practitioners The 31 papers presented in this volume were carefully reviewed and selected from overall 79 submissions In addition to the 26 workshop papers this volume also includes 2 papers from the Agile Education and Training Track and 3 papers from the Doctoral Symposium Furthermore the book contains a summary of a panel discussion with the topic Covid 19 s Influence on the Future of Agile     Service-Oriented Computing Sami Yangui,Ismael Bouassida Rodriguez,Khalil Drira,Zahir Tari,2019-10-25 This book constitutes the proceedings of the 17th International Conference on Service Oriented Computing ICSOC 2019 held in Toulouse France in October 2019 The 28 full and 12 short papers presented together with 7 poster and 2 invited papers in this volume were carefully reviewed and selected from 181 submissions The papers have been organized in the following topical sections Service Engineering Run time Service Operations and Management Services and Data Services in the Cloud Services on the Internet of Things Services in Organizations Business and Society and Services at the Edge     *Beyond Banks* Dan Awrey,2024-10-22 How new technology is rapidly changing the nature of money and the way we pay A diverse and growing range of financial institutions and platforms from PayPal and Venmo to WeChat Alipay and the brave new world of stablecoins has harnessed new technology to disrupt the system of money and payments as we know it Beyond Banks explains why this disruption holds out the promise of faster cheaper more convenient and more secure payments but also how it increasingly risks exposing consumers businesses and governments to the problem of bad money Dan Awrey traces the origins of our current bundled

system of banking money and payments He explains why the problem of bad money the result of antiquated and inadequate laws and regulation that fail to establish credible commitments to hold transfer or return a customer s money on demand requires that policymakers fundamentally rethink their approach toward the design of the laws and institutions at the heart of this system He presents ways to effectively unbundle banking from money and payments ensure the credibility of monetary commitments and promote the stability of this system Awrey also envisions a more forward looking role for policymakers in encouraging greater technological experimentation competition and innovation in the realm of payments Beyond Banks sheds critical light on the important but too often dysfunctional relationship among technology regulation and money and lays the foundations for a safer more nimble and more inclusive system of money and payments **Working as**

**a Data Librarian** Eric O. Johnson,2018-11-16 Many librarians job responsibilities increasingly require them to understand and handle data Learn how to be an effective data librarian even if you never expected to need data skills The field of data librarianship is rapidly growing and some librarians may feel that their training and experience does not cover data questions asked by patrons seeking advice With this gentle guide for librarians moving sometimes unexpectedly into the world of data librarianship all you need is a willingness to learn the skills required for the rapidly growing number of jobs requiring data librarianship Working as a Data Librarian focuses on transferable skills and understanding and does not assume extensive knowledge It introduces tasks and concepts needed to be an effective data librarian such as best practices for data reference interviewing finding data sources data visualization data literacy the data lifecycle metadata design database design understanding data management and preparing data management plans Additional sections focus on supporting creativity Makerspaces and Fablabs 3 D modeling supporting analysis GIS data visualization text mining statistical methods supporting research digital scholarship digital preservation institutional data repositories scholarly communication and outreach data librarian liaisonship hackathons developing outreach programs Financial Technology

Niels Pedersen,2020-12-03 Fintech continues to revolutionize financial services Financial Technology shows you how to navigate this increasingly de centralized personalized and automated environment This new textbook strikes a balance between academic depth and commercial relevance in examining the advantages and challenges of these changes through the lens of various analytical frameworks Financial Technology demystifies key technologies such as blockchains APIs AI machine learning and cloud computing in a clear and accessible style suitable for readers with no technological background Real world case studies from a variety of international organizations including Lloyds Bank TransferWise Generali Starling and Stocktwits bridge the gap between theory and practice and contextualize learning in terms of real businesses from large incumbents to smaller start ups With coverage of robo advisors mobile only banks open banking and risk and regulation this book also explores a range of analytical frameworks to critically examine new technologies and emerging business models Financial Technology enables readers to understand the fintech movement in the context of recent financial history examine the key drivers of change and

form insights about the financial system in a forward looking and global manner Online resources include PowerPoint slides for lecturers and additional case studies *Continuous API Management* Mehdi Medjaoui,Erik Wilde,Ronnie Mitra, Mike Amundsen,2018-11-14 A lot of work is required to release an API but the effort doesn't always pay off Overplanning before an API matures is a wasted investment while underplanning can lead to disaster This practical guide provides maturity models for individual APIs and multi API landscapes to help you invest the right human and company resources for the right maturity level at the right time How do you balance the desire for agility and speed with the need for robust and scalable operations Four experts from the API Academy show software architects program directors and product owners how to maximize the value of their APIs by managing them as products through a continuous life cycle Learn which API decisions you need to govern and how and where to do so Design deploy and manage APIs using an API as a product AaaP approach Examine ten pillars that form the foundation of API product work Learn how the continuous improvement model governs changes throughout an API's lifetime Explore the five stages of a complete API product life cycle Delve into team roles needed to design build and maintain your APIs Learn how to manage your API landscape the set of APIs published by your organization
