An American Odyssey Mary Schmidt Campbell, 2018-08-06 By the time of his death in 1988 Romare Bearden was most widely celebrated for his large scale public murals and collages which were reproduced in such places as Time and Esquire to symbolize and evoke the black experience in America As Mary Schmidt Campbell shows us in this definitive defining and immersive biography the relationship between art and race was central to his life and work a constant driving creative tension Bearden started as a cartoonist during his college years but in the later 1930s turned to painting and became part of a community of artists supported by the WPA As his reputation grew he perfected his skills studying the European masters and analyzing and breaking down their techniques finding new ways of applying them to the America he knew one in which the struggle for civil rights became all absorbing By the time of the March on Washington in 1963 he had begun to experiment with the Projections as he called his major collages in which he tried to capture the full spectrum of the black experience from the grind of daily life to broader visions and aspirations Campbell's book offers a full and vibrant account of Bearden's life his years in Harlem his studio was above the Apollo theater to his travels and commissions along with illuminating analysis of his work and artistic career Campbell who met Bearden in the 1970s was among the first to compile a catalogue of his works An American Odyssey goes far beyond that offering a living portrait of an artist and the impact he made upon the world he sought both to recreate and celebrate

This reputation would be tested beyond breaking point over the course of the American Revolutionary War. From Saratoga to South Carolina the 33rd was one of the most heavily engaged units on either side throughout the war. The 33rd's rise to prominence stemmed from its colonel Charles Earl Cornwallis who took over in 1766. In a period where senior officers wielded huge influence over their own regiments Cornwallis proved to be the best kind of commander. Diligent and meticulous he focussed on improving the 33rd in every regard from drills and field exercises to the quality of the unit's weapons and clothing. The 33rd subsequently became known as the pattern for the army the unit on which other successful regiments were based. Prior to the outbreak of fighting in the American colonies in 1775 the 33rd's abilities particularly in new light infantry drills were frequently praised. At one point they even assisted in training the elite regiments of the Foot Guards. The 33rd missed the first year of the Revolutionary War but sailed in early 1776 as part of the ill fated expedition to capture Charleston in South Carolina. After joining the main British force in North America outside New York in August 1776 the 33rd was brigaded with the best units in the army including the composite grenadier and light infantry battalions. Over the next five years the regiment engaged in every major battle of the Revolutionary War from Long Island and Brandywine to Germantown and Monmouth it even had one unlucky company of recruits present at Freeman's Farm and Bemis Heights and the subsequent surrender at Saratoga. In 1780 The Pattern was part of Britain's southern expedition which put Cornwallis in command of the Crown's efforts to subdue the Carolinas. Here the 33rd provided perhaps their greatest service and fought their most desperate battles at Camden and Guildford Courthouse. They marched to eventual defeat at Yorktown but not all of the regiment's companies were captured and some continued to serve actively elsewhere right up until the end of the war. This work is partly a regimental history giving the most detailed account yet of the 33rd's actions during the Revolutionary War. It is also however a broader study of the British Army during the revolutionary era. It assesses what a single regiment can tell us about wider issues affecting Britain's military. Everything from training weapons and uniforms organization transportation camp life discipline food finances and the role of women and camp followers is addressed alongside the marching fighting and dying done by the men of the regiment between 1775 and 1783. Primary sources particularly engaging accounts such as those of Captain William Dansey or John Robert Shaw a regular enlisted man provide an engrossing narrative to this part social part military history of the British Army at war in the late eighteenth century.
