2015 Provincial Time Table:

Regional Integration and Governance Reshuffling in the Making of China's City-Regions Xianchun Zhang,2023-08-07 This book for the first time thoroughly investigates the extent of economic and institutional integrations and the underlying governance reshuffling process of China's city regionalism. By using the Shenzhen Dongguan Huizhou sub region SDH in southern China as an empirical case this book provides convincing evidence that China's city regionalism is essentially a state orchestrated and institution based process. Perspectives from market industry infrastructure and multi level governance MLG have been provided to systematically examine China's city regionalism. This book has essentially made a definitive contribution to China's regional governance. Methodologically it shows how China's city regionalism can be examined through a problem solving and case by case paradigm through building a bridge between an empirical slogan and an inclusive theoretical term for institutional integration and through MLG and its integrative approaches in China. Exhilarating findings are presented using extensive tables graphs and maps along with the integration of quantitative and qualitative methods. Undergraduates graduates and researchers who are interested in China's city regionalism and regional governance would be the readership of the book and officers from different levels of government as well as policymakers will find the book inspiring.

Large Igneous Provinces and their Plumbing Systems R. K. Srivastava,R. E. Ernst,,K. L. Buchan,,M. De Kock,2022-03-15 Identification of large volume short duration mafic magmatic events of intraplate affinity in both continental and oceanic settings on the Earth and other planets provides invaluable clues for understanding several vital geological issues of current concern. Of particular importance is understanding the assembly and dispersal of supercontinents through Earth's history dramatic climate change events including mass extinctions and processes that have produced a wide range of large igneous province LIP related resources such as Ni Cu PGE Au U base metals and petroleum. This volume comprises 21 contributions on the latest developments and new information on LIPs and their plumbing systems and presents methodical studies on different components of LIP plumbing systems. These articles are especially helpful in understanding continental break up events regional domal uplift and a variety of metallogenic systems as well as the temporal and spatial distribution of LIPs their origin and their likely links to mantle plumes superplumes.

Remote Sensing Applications in Monitoring of Protected Areas Yeqiao Wang ,Zhong Lu,Yongwei Sheng,Yuyu Zhou,2020-12-02 Remote sensing has been successfully applied in monitoring of protected areas around the world. With intensified impacts of climate and environmental change protected areas become increasingly important to serve as indicators of and buffers against the impacts of the disturbances. Remote sensing plays an irreplaceable role in this frontline of challenges. The subjects and contents of the articles collected in this book reflect the state of the art applications of remote sensing for capturing dynamics of environmental and ecological variations of the protected areas. The examples include revealing the level growth rate trend and distribution pattern of the night time light of global protected areas quantifying the energy budget water cycle and carbon sink over the Three River

Headwaters Region in the hinterland of the Tibetan Plateau monitoring wetland change in a cross boundary zone between Northeast China and the Russian Far East and monitoring applications and change analyses in protected areas of boreal forests dryland shrubs coastal salt marshes large lakes and temperate semi humid to semi arid transitional agricultural regions using a variety of sensor data with innovative approaches Also included in this collection is a bibliometric analysis that suggests the intellectual structure in remote sensing of protected areas from the perspective of journal publications
