Misanthrope! Autobiographical Notes Frank Robert Vivello, 2017-10-17 This may be the oddest book of its kind that you'll ever read It's a memoir of a sort an autobiography in much the same way that crumbs dropped on the forest floor are a pathway to the old hag's hut where Hansel and Gretel are held If you collect the crumbs as you walk you'll have a sum greater than its parts at the end of your trek a surprisingly coherent account of a unique personality an incorrigible individualist fiercely independent defiant of tradition who is sometimes profound and insightful and sometimes trite and narrow minded highly original but not necessarily admirable Most important the author is someone who thinks which challenges readers to think And whether or not you're sympathetic to his way of thinking one thing is clear he is above all else rational

The Contemporary Parallel New Testament John R. Kohlenberger, 1997 This volume will be of special interest to readers with an interest in comparing New Testament texts used by evangelical Christians It features the King James Version New American Standard Bible Updated New Century Bible Contemporary English Version New International Version New Living Translation New King James Version and The Message All these translations with the exception of the venerable KJV were published since 1978 The CPNT is the first parallel resource to include both the NIV and NKJV

A Delicate Choreography David Sabea, 2023-10-24 The origins of the incest taboo have puzzled many of the most influential minds of the West from Plutarch to St Augustine St Thomas Aquinas Martin Luther David Hume Lewis Henry Morgan Sigmund Freud Emile Durkheim Edward Westermarck and Claude Lévi Strauss This book puts the discussion of incest on a new foundation It is the first attempt to thoroughly examine the rich literature from philosophical theological and legal treatises to psychological and biological genetic studies to a wide variety of popular cultural media over a long period of time The book offers a detailed examination of discursive and figurative representations of incest during five selected periods from 1600 to the present The incest discussion for each period is complemented with a presentation of dominant kinship structures and changes without arguing for causal relations Part I deals with the legacy of ecclesiastical marriage prohibitions of the Middle Ages Historians dealing with the Reformation have wondered about the political and social implications of theological debates about the incest rules the Enlightenment opted for sociological considerations of the household and a new anthropology based on the passions Baroque discourse focused upon sexual relations among kin by marriage while Enlightenment and Romantic discussions worried the intimacy of siblings The first section of Part II deals with the six decades around 1900 during which European and American cultures obsessed about the sexuality of women Almost everyone concurred in the idea that mother made the family what it was that she configured the household kept the lines of kinship vibrant and stood at the threshold as stern gatekeeper and many thought that she

managed these tasks through her sexuality and an eroticized relationship with sons Another story line taken up in the section Intermezzo this one about the physical and mental consequences of inbreeding appeared after 1850 To what extent do close kin marriages pose risks for progeny At its center lay the incest problematic now restated Is avoidance of kin genetically programmed Do all cultures know about risks of consanguinity As for the twenty first century evolutionary and genetic assumptions are challenged by a living world population containing roughly one billion offspring of cousin marriages Part III deals with one of the perhaps most remarkable reconfigurations of Western kinship in the aftermath of World War I The shift from an endogamous to an exogamous alliance system centered on the nuclear family An historical anomaly this family form began to dissolve almost as soon as it came together and in the process shifted the focus of incest concerns to a new pairing father and daughter By the 1970s when the father daughter problematic swept all other considerations of incest aside that relationship had come to be modeled for the most part around power and its abusive potential As for incest its representations in the last three decades of the twentieth century no longer focused on biologically damaged progeny but rather on power abuses in the nuclear family sexual abuse By the mid 1990s Western culture at least partly redirected its gaze away from father and daughter towards siblings especially towards brothers and sisters and the sexual boundaries and erotics of their relationships Correspondingly siblings became a model organism for psychotherapy evolutionary biology and the science of genetics
