GENERAL PURCHASING PROCEDURES – COMMODITIES

Purchasing

All procurement items bought are classified into one of three locations: Major, Minor, and Emergency procurement by the Purchasing Department. This classification determines which items are considered for contracts that the department has or negotiates independently of their regular use of the organization. The purchasing department must still purchase in accordance to procurement rules, and forms are then developed based on the procurement needs from the purchasing function.

NOTE: This must be included with all the required procurement forms.

Purchasing Procedures

All purchases for supplies of materials, equipment, and equipment must be submitted to the Purchasing Office or to "Generalized Purchasing" (GPPS) using the Purchasing (PPS) web procurement system.

Purchasing is the purchase requisition number flow chart:

1. First, the requisition enters the department, specifying the item, name of the purchased item.
2. Next, the requisition enters into either the General Purchasing or the Purchasing (PPS) web procurement system.
3. If the requisition reaches the department, the department enters their name and the name of the department in regards to the requisition.
4. Once approved, it goes to the Purchasing Manager and Administrator, they either approve or deny the requisition's procurement function.
5. Upon approval of the requisition by both Purchasing Manager and Administrator, the status of the requisition becomes approved, and enters into the Purchasing Office with either the requisition form (either paper or online) or both.
