[The Routledge Handbook of Child and Family Social Work Research](#) Elizabeth Fernandez, Penelope Welbourne, Bethany Lee, Joyce L. C. Ma, 2024-09-30 This Handbook provides an accessible resource for all social work students, educators, practitioners and policymakers to increase their knowledge and understanding of how research into the diversity and impact of child and family social work interventions might underpin and drive policy and practice. Divided into six sections: The Context of Child and Family Social Work Research, Preventive and Reparative Responses to Children and Families, Child Maltreatment, Causes, Consequences and Responses, Alternate Care as an Approach to Safeguarding Children and Young People, Intervention, Therapeutic Responses to Vulnerable Children, Youth and Families, and Child and Family Social Work in the Global Context. Comprising 52 newly written chapters by experts in the field, it provides a foundational overview of the field of child and family social work, including defining concepts, sentinel historical milestones and the scope of practice. It also identifies developments in auxiliary fields such as neuroscience, psychology, education, health, poverty and media. By illustrating diverse research endeavours in parenting, maltreatment, prevention, child protection and substitutive interventions, including foster care, residential care, adoption and juvenile corrections, and elaborating child welfare research methods, measures and impacts on practice, it analyses evidence-based interventions and policies in early intervention, child protection, child placement, adoption and advocacy. It will be a required reading for anyone working in social work and child protection.

[Young People in Out-of-Home Care](#) Robert J. Flynn, Meagan Miller, Tessa Bell, Barbara Greenberg, Cynthia Vincent, 2023-05-23 Child abuse is typically considered to be the most severe form of early adversity to which children or adolescents can be subjected. Maltreated young people seen as at the highest risk are likely to be placed in out-of-home care for their own protection, including foster care, kinship care, group care or independent living. *Young People in Out of Home Care* is based on more than two decades of applied research and evaluation conducted since 2000 as part of the ongoing Ontario Looking After Children OnLAC Project. The OnLAC project was based on a new child welfare approach known as

Looking After Children developed in the UK in the late 1980s and 1990s to reform and improve services to vulnerable young people who were being looked after in out of home care. When launched in 2000 the OnLAC project Canadianized the UK approach and partnered with the Ontario Association of Children's Aid Societies (OACAS) and some 20 children's aid societies in the province. Since 2007 the Ontario government has mandated that local societies use the OnLAC method to plan services and monitor outcomes. Since 2000 the Ontario Looking After Children OnLAC project has gathered information on results and well-being from interviews with more than 35 000 young people in care, their caregivers and their child welfare workers. *Young People in Out of Home Care* presents major project findings and lessons that promise to improve young people's education, development, health, social and family relationships, mental health and preparation for transition to community life.

Child Life Assessment Kathryn Cantrell, Cara Sisk, Brittany Wittenberg, Camp, 2024-10-11. This textbook is the first to focus on child life assessment and educates seasoned child life specialists and child life students about the significant impact that robust psychosocial assessments have on child life interventions for children and families coping with hospitalization, chronic illness and life transitions. Child life specialists engage in a cyclical process of assessment, planning, intervention and evaluation to support healthy development and coping. The authors guide readers through current evidence-based child life assessment practices and propose future directions for the growing child life profession. The book opens with chapters discussing the foundations of child life assessment, including its history, moves to tools and approaches, then considers specific settings and populations and concludes with future directions for the profession. Case examples and professional perspectives make explicit assessment applications to child life practice. User's Guide John M. Ferritto, Robert M. Wamsley, 1981.
