the view from developing countries. The analysis leans primarily on Swiss law as Switzerland is one of the most important jurisdictions in international commercial arbitration. Switzerland has also been involved in some of the most famous and controversial arbitration cases wherein bribery and corruption became an issue. However, the study also includes a comparative analysis of the relevant laws, jurisprudence and doctrine of other major arbitration venues, particularly England, France and Germany. Not only in the light it sheds on how and whether international commercial arbitrators have hitherto justified the trust States have placed in them regarding the protection of the public interests but also in the practical solutions it offers arbitrators faced with issues of bribery and corruption this deeply researched book equips arbitration practitioners and arbitration institutions with a hitherto lacking in depth analysis on the question of *sua sponte* investigation. It also provides invaluable insights on how this issue might affect the future legitimacy and expansion of this dispute settlement mechanism. Outside the field of arbitration the book also provides jurists, legal scholars, in-house counsel for companies doing transnational business and public officials with highly enlightening perspectives on the interaction between international commercial arbitration and public interests.

#### Leadership Behaviours for Effective Policing

Mark Kilgallon, Martin Wright, 2025-02-28. An essential handbook of policing leadership behavioural skills for both professional police officers and policing students aspiring to join the force. The behaviours examined are of relevance to all ranks and roles from a newly appointed police constable to an executive officer. Behavioural soft skills are essential to effective policing practice and professional development and are particularly significant in leadership and management roles. This handbook examines the key leadership behaviours and focuses on discreet aspects within policing as well as describing a career timeline. In addition it provides a unique opportunity for leaders to articulate the effects the Covid 19 pandemic has had on law enforcement examining the impact on policing behaviours and what the blockages are. Each chapter is written by a well-established serving police leader or policing scholar bringing together a wealth of experience and understanding and applying this knowledge in context through key case studies and examples. It bridges the gap between theory and practice so readers can apply what they have learnt to their policing roles and effectively formulate and describe their own leadership philosophy and style. This is a companion book to *Behavioural Skills for Effective Policing*.
