*Small Cities, Big Issues* Christopher Walmsley, Terry Kading, 2018-07-20 Small Canadian cities confront serious social

issues as a result of the neoliberal economic restructuring practiced by both federal and provincial governments since the 1980s Drastic spending reductions and ongoing restraint in social assistance income supports and the provision of affordable housing combined with the offloading of social responsibilities onto municipalities has contributed to the generalization of social issues once chiefly associated with Canada's largest urban centres As the investigations in this volume illustrate while some communities responded to these issues with inclusionary and progressive actions others were more exclusionary and reactive revealing forms of discrimination exclusion and othering in the implementation of practices and policies Importantly however their investigations reveal a broad range of responses to the social issues they face No matter the process and results of the proposed solutions what the contributors uncovered were distinctive attributes of the small city as it struggles to confront increasingly complex social issues If local governments accept a social agenda as part of its responsibilities the contributors to Small Cities Big Issues believe that small cities can succeed in reconceiving community based on the ideals of acceptance accommodation and inclusion *Supporting the Dream* Charis McGaughy,Andrea Venezia,2015-04-22
