Perception and Cognition: Interactions in the Aging Brain Harriet A. Allen, Katherine L. Roberts, 2016-09-13 Healthy ageing can lead to declines in both perceptual and cognitive functions Impaired perception such as that resulting from hearing loss or reduced visual or tactile resolution increases demands on higher level cognitive functions to cope or compensate It is possible for example to use focused attention to overcome perceptual limitations Unfortunately cognitive functions also decline in old age This can mean that perceptual impairments are exacerbated by cognitive decline and vice versa but also means that interventions aimed at one type of decline can lead to improvements in the other Just as improved cognition can ameliorate perceptual deficits improving the stimulus can help offset cognitive deficits For example making directions and routes easy to follow can help compensate for declines in navigation abilities In this Topic we bring together papers from both auditory and visual researchers that address the interaction between perception and cognition in the ageing brain Many of the studies

demonstrate that a broadening of representations or increased reliance on gist underlie perceptual and cognitive age related declines There is also clear evidence that impaired perception is associated with poor cognition although encouragingly it can also be seen that good perception is associated with better cognition Compensatory cognitive strategies were less successful in improving perception than might be expected We also present papers which highlight important methodological considerations that are required when studying the older brain

A Cultural History of the Home in the Modern Age Despina Stratigakos,2022-09-08 A thematic overview of the cultural history of the home from 1920 to the present day

Religion in the Age of Obama Juan M. Floyd-Thomas,Anthony B. Pinn,2018-08-23 This is the first book to focus on the significance of religion during President Obama s years in the White House Addressing issues ranging from identity politics immigration income inequality Islamophobia and international affairs

Religion in the Age of Obama explores the religious and moral underpinnings of the Obama presidency and subsequent debates regarding his tenure in the White House. It provides an analysis of Obama's beliefs and their relationship to his vision of public life as well as the way in which the general ethos of religion and non religion has shifted over the past decade in the United States under his presidency. Topics include how Obama has employed religious rhetoric in response to both international and domestic events, his attempt to inhabit a kind of Blackness that comforts and reassures rather than challenges White America, the limits of Christian hospitality within U.S. immigration policy and the racialization of Islam in the U.S. national imagination. Religion in the Age of Obama shows that the years of the Obama presidency served as a watershed moment of significant reorganization of the role of religion in national public life. It is a timely contribution to debates on religion, race and public life in the United States. *Arts & Humanities Citation Index* ,1993
