Autonomy is the principle that the patient can make his or her own decisions about health care. This right extends to all health care workers, including physicians, and regardless of the health care worker's feelings about the effectiveness or necessity of

the treatment, it is ultimately the patient's right to refuse treatment.

- 7. 2 (p. 5)
In this example, the nurse owed a duty to the patient and did not carry out that duty. The patient was injured by the nurse's negligence. (1) (3) (4) The remaining words all describe similar situations, but each action is specific to medical and legal professionals.
