    Intermediate Testing Strategies Grade 9 New Edition Amin Abu-Ayyash,Juhaina Yakzan, Intermediate Testing Strategies provides students with test taking strategies that help them perform better in English language tests Intermediate Testing Strategies empowers teachers to assess students English language mastery and grants parents the chance to monitor their children s progress Intermediate Testing Strategies addresses the discrepancies discovered between students high grades for English language class work and their low scores on tests With Intermediate Testing Strategies a test is no more an anxiety provoking activity it is a day to day anxiety free pursuit   *Analysis of Creationism in the United States from Scopes (1925) to Kitzmiller (2005) and its Effect on the Nation´s Science Education System* Elizabeth Watts,2018 Creationism is based on a fundamental belief in the inerrancy of the bible and negatively affects science education because creationist proponents insist on the inclusion of supernatural explanations for the appearance of species in particular the origin of humans This detrimental effect on education is particularly relevant in the United States where almost 70% of the population rejects the idea of naturalistic evolution and the majority of American students struggle to meet the college readiness benchmarks in science and math This dissertation provides a comprehensive look at the issue from historical judicial and educational perspectives Twenty four legal cases in the United States regarding anti evolutionary strategies were analyzed in detail Strategic trends were identified ranging from the statewide banning of evolution in public schools to the required teaching of Creation Science The exact effect of creationist political activity was discerned through the analysis of state science standards and textbook adoption processes which illustrated the creationists ability to lobby for a diminished coverage of evolution in science standards and textbooks It was found that despite attempts made by scientific and educational agencies to provide guidelines such as the Next Generation Science Standards the majority of American state science standards continue to be sub par and one of the major flaws of these standards is the overall attempt to weaken the coverage of evolution throughout the standards A similar loss of quality occurs in textbooks since publishers engage in self censorship in order to avoid controversial topics such as evolution in order to prevent their books from being rejected An examination of the free choice learning materials revealed that creationist proponents are very active and successful in producing books films and museums for the sole purpose of promoting creationism Moreover a brief look at the creationist movement in Germany provided a powerful comparison to the United States and elucidated the key components necessary for a creationist movement to exist and flourish namely the presence of fundamentalist willing to fight to get anti evolutionary materials introduced into science classrooms This study provides new insights into the creationist phenomenon present not only in the United States but also increasingly present in European countries such as Germany Understanding the detrimental link between creationism and science education will help the science community realize that this topic needs to be continually readdressed and that it is imperative that these creationist trends are not dismissed as inconsequential

The UN emergency health mission "UNMEER"** Salome Fischer,Emilie Brandt,2015-10-28 Master s Thesis from the year 2015 in the subject Politics Topic International Organisations grade no grade yet University of Aarhus course International Studies language English abstract The unprecedented scope and implications of the 2014 Ebola outbreak in West Africa has confronted the international community with challenges in responding to the crisis On 19 September 2014 the first ever UN emergency health mission United Nations Mission for Ebola Emergency Response UNMEER was established UNMEER was set up as a temporary mission to bring together UN agencies and capabilities in the response and closely collaborate with governments NGOs

Member States and other relevant actors with the main strategic objective to stop the Ebola outbreak This thesis investigates the effects of UNMEER on the global Ebola response as a whole and assesses whether the establishment of the mission was the right decision to make from the UN side in response to the outbreak In this regard the context in which UNMEER was established is scrutinized by examining the challenges faced in the outbreak and how these were approached by the international community The analysis is predominantly based on qualitative primary data collected through individual semi structured interviews with respondents who are or have been directly involved in the Ebola response as well as on secondary data Findings show that UNMEER had a positive impact on the response in various respects The exceptional decision from the UN side to establish the first ever emergency health mission increased worldwide awareness of the outbreak and catalysed a high level political and financial international engagement in the response Furthermore there seems to be a positive attitude towards UNMEER s role in bringing together UN agencies under a single structure in the response as well as the logistics support provided by UNMEER to UN agencies and other partners working in the response However due to a lack of presence and a limited number of staff in the affected countries effective collaboration with organizations involved on the ground did not sufficiently materialize Findings indicate that overall responders were not satisfied with UNMEER s impact on the ground This seems to be rooted in i a a significant gap between responders expectations and perceptions of UNMEER due to lack of clear information from UNMEER s side on what exactly could be expected of the mission Drawing on research findings and lessons learned from the outbreak instead existing resources and systems under the UN Office for the Coordination of of Humanitarian Affairs OCHA should have been reinforced   Africa Sustainable Development Report ,2017   Integration of the Sustainable Development Goals and Targets Into the Implementation of the United Nations Convention to Combat Desertification and the Report of the Intergovernmental Working Group on Land Degradation Neutrality ,2015   *Department of Local Affairs & Department of Human Services Gaming Impact Grants* Colorado.
