Snyder, 2018-04-24 The 1960s marked a transformation of human rights activism in the United States At a time of increased concern for the rights of their fellow citizens civil and political rights as well as the social and economic rights that Great Society programs sought to secure many Americans saw inconsistencies between domestic and foreign policy and advocated for a new approach The activism that arose from the upheavals of the 1960s fundamentally altered U S foreign policy yet previous accounts have often overlooked its crucial role In *From Selma to Moscow* Sarah B Snyder traces the influence of human rights activists and advances a new interpretation of U S foreign policy in the long 1960s She shows how transnational connections and social movements spurred American activism that achieved legislation that curbed military and economic assistance to repressive governments created institutions to monitor human rights around the world and enshrined human rights in U S foreign policy making for years to come Snyder analyzes how Americans responded to repression in the Soviet Union racial discrimination in Southern Rhodesia authoritarianism in South Korea and coups in Greece and Chile By highlighting the importance of nonstate and lower level actors Snyder shows how this activism established the networks and tactics critical to the institutionalization of human rights A major work of international and transnational history *From Selma to Moscow* reshapes our understanding of the role of human rights activism in transforming U S foreign policy in the 1960s and 1970s and highlights timely lessons for those seeking to promote a policy agenda resisted by the White House **Beyond Control** James F. Barnett Jr., 2017-03-16 *Beyond Control* reveals the Mississippi as a waterway of change unnaturally confined by ever larger levees and control structures During the great flood of 1973 the current scoured a hole beneath the main structure near Baton Rouge and enlarged a pre-existing football field size crater That night the Mississippi River nearly changed its course for a shorter and steeper path to the sea Such a map

changing reconfiguration of the country's largest river would bear national significance as well as disastrous consequences for New Orleans and towns like Morgan City at the mouth of the Atchafalaya River. Since 1973 the US Army Corps of Engineers Control Complex at Old River has kept the Mississippi from jumping out of its historic channel and plunging through the Atchafalaya Basin to the Gulf of Mexico. *Beyond Control* traces the history of this phenomenon beginning with a major channel shift around 3 000 years ago. By the time European colonists began to explore the Lower Mississippi Valley a unique confluence of waterways had formed where the Red River joined the Mississippi and the Atchafalaya River flowed out into the Atchafalaya Basin. A series of human alterations to this potentially volatile web of rivers starting with a bend cutoff in 1831 by Captain Henry Miller Shreve set the forces in motion for the Mississippi's move into the Atchafalaya Basin. Told against the backdrop of the Lower Mississippi River's impending diversion, the book's chapters chronicle historic floods rising flood crests, a changing strategy for flood protection and competing interests in the management of the Old River outlet. *Beyond Control* is both a history and a close look at an inexorable living process happening now in the twenty-first century.

Economic Woman Frances Raday, 2019-05-14 The author introduces the concept of economic woman and makes her visible in duality with and opposition to the exclusive model of economic man. Economic man has epitomized neo-liberal capitalism which embraces competition and maximization of profit resulting in a steep increase in economic inequality. The book demonstrates that women's inequality is a crucial factor in economic inequality which cannot be fully understood without relating to women's situation and that economic woman cannot thrive in the conditions of economic inequality created under global neo-liberalism. Emphasising the international human rights guarantees of women's right to equality in all fields of life, the author documents women's increased participation in political, public, financial and corporate institutions, employment and entrepreneurship with some women reaching high profile positions. Nevertheless, using global data, she reveals that economic woman lags behind with a severe economic power deficit, an unfulfilled promise of equal employment opportunity, a gendered impact of poverty and barriers to gender equality in the family. The book analyses the trap of women's increased burden of breadwinning in the context of discriminatory laws and practices, infrastructural failures and policy gaps which preempt achievement of gender equality in economic life. The book is intended for the general reader, academics, students, policy makers and NGOs. It shows economic woman at a global crossroads between a universal paradigm of gender equality and pervasive barriers to equal economic opportunity. The author demonstrates that tackling gender inequality, restoring welfare priorities and reducing economic inequality are inextricably linked. Human rights and governments have a vital role to play in addressing them all to create a sustainable economic infrastructure for the lives of women and men.
