The severe consequences of the global financial crisis 2008-2009 and numerous accounting frauds and financial scandals over the last fifteen years have led to calls for more ethical and responsible actions in all economic activities, including consumption, investing, governance, and regulation. Despite the fact that ethics in business and corporate social responsibility rules have been adopted in various countries, more efforts have to be devoted to motivate and empower more actors to integrate ethical behavior and rules in making business and managerial decisions. The Research Handbook of Finance and Sustainability will provide the readers, but particularly investors, managers, and policymakers, with comprehensive coverage of the issues at the crossroads of finance, ethics, and sustainable development, as well as proposed solutions, while focusing on three different levels: corporations, investment funds, and financial markets.

**Mark. Plan. Teach.** Ross Morrison McGill, 2017-09-07. There are three things that every teacher must do: mark, work, plan, lessons, and teach students well. This brand new book from Ross Morrison McGill, bestselling author of *100 Ideas for Secondary Teachers: Outstanding Lessons and Teacher Toolkit*, is packed full of practical ideas that will help teachers refine the key elements of their profession. Mark Plan Teach shows how each stage of the teaching process informs the next, building a cyclical framework that underpins everything that teachers do. With teachers' workload at record levels and teacher recruitment and retention the number one issue in education, ideas that really work and will help teachers not only survive but thrive in the classroom are in demand. Every idea in Mark Plan Teach can be implemented by all primary and secondary teachers at any stage of their career and will genuinely improve practice. The ideas have been tried and tested and are supported by evidence that explains why they work, including current educational research and psychological insights from Dr Tim O'Brien, leading psychologist and Visiting Fellow at UCL Institute of Education. Mark Plan Teach will enable all teachers to maximise the impact of their teaching and, in doing so, save time, reduce workload, and take back control of the classroom.
