*New Perspectives on the History of the Twentieth-Century American High School* Kyle P. Steele, 2021-11-07 The growth of the American high school that occurred in the twentieth century is among the most remarkable educational social and cultural phenomena of the twentieth century The history of education however has often reduced the institution to its educational function alone thus missing its significantly broader importance As a corrective this collection of essays serves four ends as an introduction to the history of the high school as a reevaluation of the power of narratives that privilege the perspective of school leaders and the curriculum as a glimpse into the worlds created by students and their communities and most critically as a means of sparking conversations about where we might look next for

stories worth telling      Once and Future Partners William C. Potter, Sarah Bidgood, 2018-10-09 Despite their Cold War rivalry the United States and the Soviet Union frequently engaged in joint efforts to prevent the spread of nuclear weapons Leaders in Washington and Moscow recognized that nuclear proliferation would serve neither country's interests even when they did not see eye to eye in many other areas They likewise understood why collaboration in mitigating this nuclear danger would serve both their own interests and those of the international community This volume examines seven little known examples of US Soviet cooperation for non proliferation including preventing South Africa from conducting a nuclear test developing international safeguards and export control guidelines and negotiating a draft convention banning radiological weapons It uses declassified and recently digitized archival material to explore in depth the motivations for and modalities for cooperation under often adverse political circumstances Given the current disintegration of Russian and US relations including in the nuclear sphere this history is especially worthy of review Accordingly the volume's final chapter is devoted to discussing how non proliferation lessons from the past can be applied today in areas most in need of US Russian cooperation
