*The Death and Life of Gentrification* Japonica

Brown-Saracino, 2026-01-13 A provocative account of what is gained and what is lost when a word that once narrowly referred to neighborhood change takes on a life all its own Sociologist Ruth Glass coined the term gentrification in the 1960s to mark the displacement of working class residents in London neighborhoods by the professional classes The Death and Life of Gentrification traces how the word has far outgrown Glass's meaning becoming a socially charged metaphor for cultural appropriation upscaling and the loss of authenticity In this lively and insightful book Japonica Brown Saracino traces how a concept originally intended to describe the brick and mortar transformation of neighborhoods has come to characterize transformations that have little to do with cities She describes how journalists artists filmmakers novelists and academics use gentrification as a symbolic device to mourn how everyday pleasures and forms of self expression from music to marijuana kale and tattoos entered the domain of the elite She weighs the implications of turning to gentrification as a tool to tell stories entertain audiences and communicate political messages Relying on vivid examples the book reveals how the term

today expresses widespread ambivalence about rising economic inequality and unease with a variety of forms of social change. This pathbreaking book forces us to think about whether the wide ranging way we use gentrification dilutes its meaning and stymies efforts to identify and resist urban displacement. Drawing on everything from film and television to novels and art, *The Death and Life of Gentrification* sheds critical light on the changing meaning of gentrification in contemporary life. The book is a must read for anyone interested in gentrification and urban dynamics as well as for readers curious about attitudes about growing income inequality and the evolution and circulation of ideas.

**Rewriting the North**  
Chloe Ashbridge, 2023-05-15

This book shows how twenty first century writing about Northern England imagines alternative democratic futures for the region and the English nation, signalling the growing awareness of England as a distinct and variegated political formation. In 2016 the Brexit vote intensified ongoing constitutional tensions throughout the UK which have been developing since the devolution of Scotland, Wales and Northern Ireland in 1997. At the same time British devolution developed a distinctively cultural registration as a surrogate for parliamentary representation and an attempt to disrupt the status of London as Britain's cultural epicentre. *Rewriting the North* shifts this debate in a new direction, examining Northern literary preoccupation with devolution's constitutional implications. Through close readings of six contemporary authors Sunjeev Sahota, Sarah Hall, Anthony Cartwright, Adam Thorpe, Fiona Mozley and Sarah Moss, this book argues that literary engagement with the North emphasises regional devolution's limited constitutional charge, calling instead for an urgent abandonment of the British centralised state form.
