

3COM SWITCH 4210 10/100 FAMILY

Highly affordable, entry-level managed connectivity for medium-sized businesses and branch office networks

OVERVIEW

The 3Com® Switch 4210 is a family of Layer 2 entry-level 10/100 LAN switches with enterprise-class QoS, security and management features, delivering high value for network administrators looking for an economical edge device. Available Power over Ethernet (PoE) models are ideal for voice over IP and wireless networking installations; non-PoE models are also available for simple port expansion.

Setting them apart from lower-end "smart managed" devices, the Switch 4210 supports an industry-standard Command Line Interface, Web-based administration, and SNMP management. Switches can be clustered in any combination up to thirty-two units for simplified administration.

In addition to rack-mount 26- and 52-port models, the Switch 4210 is available in small form factor units with nine or 18 ports for enterprise branch and small workgroup deployments, in both PoE and non-PoE variants, with the same manageability as the larger rack-mount versions.

The Switch 4210 comes with 3Com's limited lifetime warranty covering the unit, power supply and fan; Advanced Hardware Replacement with next business day shipment is available in most regions.

KEY BENEFITS

ECONOMICAL, FLEXIBLE LAYER 2 NETWORKING

3Com Switch 4210 switches deliver enterprise-class 10/100 Layer 2 edge connections with Gigabit uplinks. All models are wire-speed and non-blocking for optimum performance. These switches feature

Left: 3Com Switch 4210 9-Port, Switch 4210 18-Port, Switch 4210 26-Port, Switch 4210 52-Port

Right: Switch 4210-PoE 9-Port, Switch 4210-PoE 18-Port, Switch 4210-PoE 26-Port

combination ports that can run in one of two modes: 10/100/1000 Mbps connections over copper Ethernet cabling, or 100 or 1000 Mbps over fiber cabling using SFP mini-GBIC technology.

POWER OVER ETHERNET FOR VOICE-READY NETWORKING

Industry-standard IEEE 802.3af Power over Ethernet is supported on three switches: the 9-, 18- and 26-port PoE models. These switches are ideal for workgroups where phones or wireless access points connect together with user end stations, reducing costs and simplifying the installation of converged voice and wireless networks by providing power over the same Ethernet cabling as used for data.

PLUG AND PLAY CONVENIENCE

The Switch 4210 automatically selects the optimal speed and duplex mode of cables connected to it, preventing mis-configuration of the network. The switches also detect and adjust to cross-over or straight-through cable connections through its auto-MDI/MDIX feature, which eliminates the need for specific cables.

Link Aggregation Control Protocol (IEEE 802.3ad) further simplifies network configuration, automatically sensing the presence of duplicate links and aggregating them into trunks, thereby maximizing network traffic flow capability.

SECURE NETWORKING

The Switch 4210 helps ensure secure network access using standard IEEE 802.1X network login with RADIUS Authenticated Device Access (RADAL), a 3Com innovation. RADIUS support enables user
