

## Where on Earth?

The equator is an imaginary line halfway between the North Pole and the South Pole. The poles are the most northern and southern points on Earth. If a globe is divided in half along the equator, there are two hemispheres—the Northern Hemisphere and the Southern Hemisphere. If a globe is divided in half from the North Pole to the South Pole, there are two hemispheres—the Western Hemisphere and the Eastern Hemisphere. Between these land areas, or continents, that make up Earth, North America is north of the equator. South America and Antarctica are south of the equator. Large bodies of salt water, or oceans, cover much of Earth. The Pacific Ocean is west of North America, and the Atlantic Ocean is east of North America.

Use the chart to label the diagram. Write the number of each location in the correct box.

- 1. Atlantic Ocean
- 2. Northern Hemisphere
- 3. North Pole
- 4. Equator
- 5. Southern Hemisphere
- 6. Pacific Ocean
- 7. South Pole
- 8. South America
- 9. Antarctica
- 10. North America

The word hemisphere is made up of three parts, *hemis*- and *sphere*. What do you think each part means? Use a dictionary to check.

LUPTON, 1874 *Ai-Enhanced Literacy* Mary Ehrenworth, Philip Seyfried, 2025 Teach students to use AI tools in a thoughtful critical and ethical way during reading and writing instruction. The relationship between AI and literacy education isn't simple. Every tool that makes work more efficient also requires careful consideration. In this measured look at the powerful capabilities of artificial intelligence literacy experts Mary Ehrenworth and Philip Seyfried take K-12 teachers on a tour of what's possible when AI tools are seamlessly integrated into literacy teaching and learning. Each chapter examines AI's potential to expand literacy instruction, deepen student understanding, and make the teacher's role more interesting and satisfying. You'll find both theoretical approaches and practical examples to help you understand and feel at ease with current AI tools. Create AI-enhanced spaces in your classroom. Harness AI as a writing coach. Develop students' reading comprehension with digital texts and tools. Extend multilingual competencies using AI-powered translation tools. Build and use engaging text sets. Teach students to think critically about and with AI. Using AI tools to improve reading and writing instruction can feel overwhelming, but it is a critical skill for today's literacy teachers. AI Enhanced Literacy illuminates a strategic and successful path toward wise and seamless AI use for your own and your students' needs.

State Board of Education, 2004 **A Guide for the Elementary Social Studies Teacher** Willard Linwood Chase, Martha Tyler John, 1978 *Discourse and Power in Educational Organizations* David Corson, 1995 In today's post-modern and post-traditional institutions power is mainly exercised through the generation of consent through the distribution of ideologies and through the subtle indoctrination of self-disciplining practices rather than through the use of force or brute authority. This change in the nature of institutional practices focuses the role that language has always had in the exercise of power. To address the topic as it affects educational organisations the editor combines two central traditions in contemporary social science inquiry: concern for the post-modern and post-positivist condition of the contemporary world and concern for the praxis of critical theory. Contributors to the book's 14 chapters approach their topics from either or both of these traditions. In his introductions to the two parts of the book the editor suggests how these traditions can combine and at the same time respond to the challenges of educational concerns within the post-modern condition. This book's style and content should appeal to students and researchers in educational research.
