Investigating Attention to Form and Individual Differences: Research with EFL Children María del Pilar García Mayo, 2025-04-25 The teaching of the grammar of a second foreign language has always been an issue that different teaching methods have considered. Studies in the field of second language acquisition (SLA) have shown that mere exposure to meaningful second language input is not enough for learners to reach proficiency in the target language. At beginner proficiency levels, learners tend to rely on lexical items instead of grammatical form to obtain meaning. Recent research has pointed out the need for effective grammar pedagogy in foreign language environments in which the exposure to the language being learned is limited. The present book presents a selection of eleven empirical papers dealing with children's attention to formal aspects of the language they are learning and some of them consider the impact of individual differences on the learning process. Each of the studies reported in the individual chapters is based on a solid theoretical background and an overview of studies in the corresponding research area. This volume has been awarded the 2025 Prize for Best Edited Collection in Language Linguistics by the Asociación Española de Estudios Anglo Norteamericanos (AEDEAN).

Shrines to Living Men in the Ming Political Cosmos Sarah Schneewind, 2020-10-26 Shrines to Living Men in the Ming Political Cosmos, the first book focusing on premortem shrines in any era of Chinese history, places the institution at the intersection of politics and religion. When a local official left his post, grateful subjects housed an image of him in a temple, requiting his grace that was the ideal model. By Ming times, the living shrine was legal, old, and justified by readings of the classics. Sarah Schneewind argues that the institution could invite and pressure officials to serve local interests; the policies that had earned a man commemoration were carved into stone beside the shrine. Since everyone recognized that elite men might honor living officials just to further their own careers, premortem shrine rhetoric stressed the role of commoners who embraced the opportunity by initiating many living shrines. This legitimate institutionalized political voice for commoners expands a scholarly understanding of public opinion in late imperial China, aligning it with the efficacy of deities to create a nascent political conception. Schneewind calls the minor Mandate of Heaven. Her exploration of premortem shrine theory and practice illuminates Ming thought and politics, including the Donglin Party's battle with eunuch dictator Wei Zhongxian and Gu Yanwu's theories.

The Meaning of Space in Sign Language Gemma Barberà Altimira, 2015-07-01 Bringing together sign language linguistics and the semantics/pragmatics interface, this book focuses on the use of signing space in Catalan Sign Language (LSC). On the basis of small-scale corpus data, it provides an exhaustive description of referential devices dependent on space. The book provides insight into the study of meaning in the visual-spatial modality and into our understanding of the discourse behavior of spatial locations.
