Black Women, Work, and Welfare in the Age of Globalization

Sherrow O. Pinder,2018-05-24 Pinder explores how globalization has shaped and continues to shape the American economy which impacts the welfare state in markedly new ways In the United States the transformation from a manufacturing economy to a service economy escalated the need for an abundance of flexible exploitable cheap workers The implementation of the Personal Responsibility Work Opportunity Reconciliation Act PRWORA whose generic term is workfare is one of the many ways in which the government responded to capital need for cheap labor While there is a clear link between welfare and low wage markets workfare forces welfare recipients including single mothers with young children to work outside of the home in exchange for their welfare checks More importantly workfare provides an underclass of labor that is trapped in jobs that pay minimum wage This underclass is characteristically gendered and racialized and the book builds on these insights and seeks to illuminate a crucial but largely overlooked aspect of the negative impact of workfare on black single mother welfare recipients The stereotype of the underclass which is infused with racial meaning is used to describe and illustrate the position of black single mother welfare recipients and is an implicit way of talking about poor women with an invidious racist

and sexist subtext which Pinder suggests is one of the ways in which gendered racism presents itself in the United States Ultimately the book analyzes the intersectionality of race gender and class in terms of welfare policy reform in the United States
