ECGBL2011-Proceedings of the 5th European Conference on Games Based Learning Dimitris Gouscos, **Making Space for Active Learning** Anne C. Martin, Ellen Schwartz, 2015-04-28 This powerful collection will inspire new and veteran teachers to make space for children's interests for teaching as relational and intellectual work and for new insights and ideas. The authors introduce the Prospect Center's Descriptive Review of Practice, a collaborative inquiry process that provides an opportunity for teachers to examine their practice and gain new perspectives from other participants. The contributors to this volume respond to each child's modes of thinking as they develop curriculum or find wiggle room in curricula they are given. By demonstrating how it is possible to pursue careful knowledge of craft, this book offers ways of teaching that allow for continuing growth and change. Book Features: An inquiry methodology that assists teachers to reflect on the classroom and develop curriculum that responds to children's interests and needs. Specific examples of a variety of sources teachers can draw on and think about to improve practice. A method of data collection that can inform practice while allowing for the unevenness, messiness, and essential humanness of teaching and learning. *Making Space for Active Learning* is a collection that stands alone and gets to the heart of what we mean by learning and teaching. Each contribution reminded me of how much I miss being in the classroom and how much we're missing in current so-called school reform discourse. Keep this book handy. A chapter at a time will restore some needed sanity about what's important. Deborah Meier, author and education activist. This book is a moving and powerful collection of teachers' work that holds the possibility of inspiring and changing new teachers' practice. Kathy Schultz, Dean and Professor, School of Education, Mills College. This book will add significantly to the expanding and important literature about The Prospect Processes, which were developed over many years at the Prospect School and Center in Vermont. The chapters all by experienced educators profit from the back and forth between inquiry and stories of classroom life, each informing the other. Brenda S. Engel, associate

professor retired Lesley University **To Teach** William Ayers, 2025 *To Teach* is both the story of a new teacher's voyage into the classroom and a guide to the values and commitments that can animate a steady and meaningful life in teaching. There are stumbling blocks in every teacher's journey and today's specific unprecedented challenges can seem insurmountable. In this new edition Ayers discusses important events that have shaped education since the last edition was published, including a global pandemic and the Black Lives Matter movement. He also discusses the heightened politicization of teaching as a profession, resulting in insidious book banning as well as the continuing influence of mass incarceration on schooling. For over 3 decades this classic text has inspired teachers across the country to follow their own paths, face their own challenges, and become the teachers they long to be. This engaging teacher's odyssey is a road map to the beating heart of teaching, emphasizing the joy in the journey and the pleasure in a life lived in the company of children and youth.

Book Features: A primer for new teachers trying to develop the skills and commitments needed to be effective in the classroom. An incitement to K-12 teachers to reimagine their teaching and rethink their practice. Also available as a graphic novel, *To Teach: The Journey in Comics*, featuring the drawings of talented artist Ryan Alexander-Tanner. The latest edition of Bill Ayers' timeless classic is more necessary than ever. I wish I had this book when I first entered the classroom, something to ground me, support me, and guide me through the uncertainties and challenges of teaching. From the Foreword by Bettina L. Love, William F. Russell Professor, Teachers College, Columbia University. Ayers' riveting description of his unfolding journey as a teacher will be a helpful guide to teachers at all stages of their careers.
