**Contemporary World Narrative Fiction and the Spaces of Neoliberalism** Michael K. Walonen,2016-04-26 This book is a transnational study of how contemporary fiction writers from the United States and Canada to Nigeria to India to Dubai have conceptualized the emergent social spaces of the diverse corners of the neoliberal world system Over the span of the past three to four decades free market economic policies have been sold to or pushed upon every society on the globe in some way shape or form The upshot of this has been a world system structured in terms of a vast shift of power and resources from government to private enterprise dwindling civic life replaced by rising consumerism an emerging oligarchic rentier class large segments of population faced with meager material conditions of existence and few prospects of socio economic mobility and a looming sense of a near future dominated by further economic collapses and mounting social strife This book analyses a wide cultural array of some of the most poignant narrative engagements with neoliberalism in its various localized manifestations throughout the world

Nancy Pearl Book Award Finalist A thoughtful look at desperation brought about by early 20th century American enterprise Kirkus Reviews Enthralling the storytelling has grit under its fingernails Publishers Weekly BookLife Review Readers will be swept up Seattle Book Review Published on the 80th anniversary of the Grand Coulee Dam The Grand Promise is a work of

literary fiction about the real communities that were impacted by the dam's construction on the Columbia River in the 1930s during Franklin D. Roosevelt's presidency. Called a gripping debut by best-selling author Jonathan Evison and an ambitious saga by Washington State Book Award winner Peter Mountford, *The Grand Promise* was the 1 fiction bestseller at Small Press Distribution in its release month.

*Postmodern/Postwar and After* Jason Gladstone, Andrew Hoberek, Daniel Worden, 2016-07

Within the past ten years the field of contemporary American literary studies has changed significantly. Following the turn of the twenty-first century and mounting doubts about the continued explanatory power of the category of postmodernism, new organizations have emerged, book series have been launched, journals have been created, and new methodologies, periodizations, and thematics have redefined the field. *Postmodern/Postwar and After* aims to be a field-defining book, a sourcebook for the new and emerging critical terrain that explores the postmodern postwar period and what comes after. The first section of essays returns to the category of the postmodern and argues for the usefulness of key concepts and themes from postmodernism to the study of contemporary literature or reevaluates postmodernism in light of recent developments in the field and historical and economic changes in the late twentieth and early twenty-first centuries. These essays take the contemporary abandonments of postmodernism as an occasion to assess the current states of postmodernity. After that, the essays move to address the critical shift away from postmodernism as a description of the present and toward a new sense of postmodernism as just one category among many that scholars can use to describe the recent past. The final section looks forward and explores the question of what comes after the postwar postmodern. Taken together, these essays from leading and emerging scholars on the state of twenty-first century literary studies provide a number of frameworks for approaching contemporary literature as influenced by yet distinct from postmodernism. The result is an indispensable guide that seeks to represent and understand the major overhauling of postwar American literary studies that is currently underway.

**Downward Mobility** Katherine Binhammer, 2020-04-28 How do the stories we tell about money shape our economies Beginning in the late eighteenth century as constant growth became the economic norm throughout Europe fictional stories involving money were overwhelmingly about loss Novel after novel tells the tale of bankruptcy and financial failure of people losing everything and ending up in debtor's prison of inheritances lost and daughters left orphaned and poor In Downward Mobility Katherine Binhammer argues that these stories of ruin are not simple tales about the losers of capitalism but narratives that help manage speculation of capital's inevitable collapse Bringing together contemporary critical finance studies with eighteenth century literary history Binhammer demonstrates the centrality of the myth of downward mobility to the cultural history of capitalism and to the emergence of the novel in Britain Deftly weaving economic history and formal analysis Binhammer reveals how capitalism requires the novel's complex techniques to render infinite economic growth imaginable She also explains why the novel's signature formal developments owe their narrative dynamics to the contradictions within capital's form Combining new archival research on the history of debt with original readings of sentimental novels including Frances Burney's *Cecilia* and *Camilla* Sarah Fielding's *David Simple* and Oliver Goldsmith's *The Vicar of Wakefield* Downward Mobility registers the value of literary narrative in interpreting the complex sequences behind financial capitalism especially the belief in infinite growth that has led to current environmental crises An audacious epilogue arms humanists with the argument that in order to save the planet from unsustainable growth we need to read more novels [Green Mountains Review](#), 2015 [The Young Man's Guide to](#)
