Federal Labor Relations Authority,2015      **World Bank East Asia and Pacific Economic Update, April 2015** World Bank,2015-04-14 The East Asia and Pacific Economic Update provides regular biannual analyses of development trends and economic policy issues across the East Asia and Pacific region      *Beyond Homeless* Mary L. G. Theroux,Lawrence J. McQuillan,Adam B. Summers,2025-10-28 Entire neighborhoods in cities across the United States have become open air asylums drug markets and impoverished wastelands where death misery crime addiction encampments fires disease and even human waste aren t just tolerated but normalized How is this possible when billions of taxpayer dollars have been funneled into homelessness initiatives such as Housing First The truth is that the money poured into this issue from taxpayers non profits and private charities alike has mostly made homelessness worse overall And governments failures haven t just wasted taxpayer dollars it has cost lives and undermined human dignity This isn t just incompetence It s immoral and unjust And it must end In *Beyond Homeless* Good Intentions Bad Outcomes Transformative Solutions Mary L G Theroux Lawrence J McQuillan Adam B Summers and other scholars present a better approach rooted in

proven solutions This groundbreaking new book based on years of research is exactly what s needed to address the crisis With forewords from acclaimed addiction medicine specialist and TV host Dr Drew Pinsky and licensed master social worker Scott Ackerson the book gathers experts on every aspect of homelessness to present a stirring condemnation of the status quo and an inspiring vision for the future Drawing on real life stories cutting edge research and alternative programs with metric driven successes they make the case for individualized holistic interventions that actually work Discover How Housing First initiatives have become governments default response to homelessness and why they fail Why permanent supportive housing PSH isn t just ineffective but dangerous How political interests fuel the homelessness industrial complex resulting in ever increasing spending while falling further behind The inspiring success of real alternatives such as Haven for Hope in Texas and Union Rescue Mission in Los Angeles Policy changes that would truly ease the crisis for the unhoused and housed alike without breaking the bank The difference between responsible and irresponsible forms of harm reduction And much much more At the heart of this crisis are real people those experiencing homelessness and the residents who see their neighborhoods crumble Both have paid a high price for failed policies Both deserve better The good news We can do better Beyond Homeless Good Intentions Bad Outcomes Transformative Solutions shows us how *Base Nation* David Vine,2015-08-25 From Italy to the Indian Ocean from Japan to Honduras a far reaching examination of the perils of American military bases overseas American military bases encircle the globe More than two decades after the end of the Cold War the U S still stations its troops at nearly a thousand locations in foreign lands These bases are usually taken for granted or overlooked entirely a little noticed part of the Pentagon s vast operations But in an eye opening account *Base Nation* shows that the worldwide network of bases brings with it a panoply of ills and actually makes the nation less safe in the long run As David Vine demonstrates the overseas bases raise geopolitical tensions and provoke widespread antipathy towards the United States They also undermine American democratic ideals pushing the U S into partnerships with dictators and perpetuating a system of second class citizenship in territories like Guam They breed sexual violence destroy the environment and damage local economies And their financial cost is staggering though the Pentagon underplays the numbers Vine s accounting proves that the bill approaches 100 billion per year For many decades the need for overseas bases has been a quasi religious dictum of U S foreign policy But in recent years a bipartisan coalition has finally started to question this conventional wisdom With the U S withdrawing from Afghanistan and ending thirteen years of war there is no better time to re examine the tenets of our military strategy *Base Nation* is an essential contribution to that debate Japanese Economic Statistics ,1966 **Japanese Economic Statistics** Japan.
