The final **COSTS** of your building may change based on the design you choose. It's a good idea to speak with an **ARCHITECT** to fully understand the costs associated with building to meet your unique needs. Several factors can impact the overall cost of a building project, such as soil conditions, market conditions, and labor. This information is intended to be a helpful resource during the early stages of the design process, allowing you to understand any limitations and plan accordingly. Please keep in mind that the rates of **LUXURY** buildings may exceed the estimates provided here. Additionally, some items like landscaping, pools, decks, and other structures are not included in the approximate building rates and must be calculated separately. Finally, it's worth mentioning that professional fees, transaction and permit fees, taxes, and other similar costs are not included in the approximate building construction rates.
