**MoMoWo · 100 projects in 100 years. European Women in Architecture and Design · 1918-2018**

Ana Fernandez Garcia, Helena Seražin, Emilia Maria Garda, Caterina Franchini, 2016-09-01 This publication is aimed to support two MoMoWo traveling exhibitions which will be presented in six European countries in two years 2016-2017. Indoor exhibition catalogue 100 Works in 100 Years European Women in Architecture and Design 1918-2018 and outdoor exhibition Women's Tale A Reportage on Women Designers. Exhibition catalogue 100 Works in 100 Years European Women in Architecture and Design 1918-2018 brings together a selection of some of the most significant and representative examples of European architecture and design created by 100 women from the end of the First World War up until today. The number of works is symbolic as one hundred could also mean countless as in the Latin word centum. While the number of authors each work has a different author derives from MoMoWo's choice to represent many different creators consequently popularising lesser known figures too. It includes biographies of women architects, civil engineers, furniture and industrial designers, urban planners, interior and landscape designers. It represents the main trends and major schools of architecture and design all over Europe. The biographical data covers education and training, professional histories, networks women have operated in, including informal societies, memberships in trade bodies and associations, their profile as international, national, local and regional designers, as well as looking at how women have promoted their work i.e. in exhibitions, publications, competition entries etc. The catalogue entries are followed by thirteen thematic essays on women architects and designers and by the outdoor exhibition catalogue Women's Tale A Reportage on Women Designers where photographs by ten finalists of the MoMoWo Photo competition are presented. By seeking to identify women who worked in Europe as well as European women who worked outside Europe over the last 100 years, the main aim of this catalogue is to increase the awareness of historians and the general public about their enormous contribution to architecture and design and indirectly providing accessibility to their works.

**Treasures Lost** Francisco Martins, 2022-06-06 The book of Kings repeatedly refers to the despoliation of the treasures of the Jerusalem temple and royal palace. These short notices recounting a foreign invasion and the loss of national wealth have been explored only briefly among scholars applying their expertise to the analysis of the book of Kings or the study of the Jerusalem temple and royal palace from both literary and historical perspectives. This monograph aims to fill this lacuna. Adopting an approach that combines a more traditional form of literary criticism with a thorough analysis of the narrative role and intertextual connections giving shape to the texts Sitz in der Literatur the book offers a more complex and nuanced appreciation of the literary development and ideological profile of the despoliation notices. In addition it weighs the use of the underlying literary motif in the biblical writings against other Ancient Near Eastern sources. This study not only provides new perspectives on the role of motifs in biblical historiography but has far reaching implications for the reconstruction of the process of production and transmission of Kings as part of the Deuteronomistic History

Destruction by the Lord's Power, Internal Troubles and Wars Martin Körner, Niklaus Bartlome, 2000 Kriege soziale und politische Unruhen und Revolutionen Macht und Modernisierungsbestrebungen lokaler und staatlicher Herrschaften haben seit der Antike immer wieder die Zerstörung ganzer Städte oder Stadtteile zur Folge gehabt. In Polen, Serbien und Rumänien aber auch in Südwestfrankreich oder Irland verursachten Einfälle fremder Aggressoren im Mittelalter und in der frühen Neuzeit schwerste Verwüstungen. Sie brachten aber auch wirtschaftliche Rückenschläge und viel menschliches Leid. Eine völlig neue Dimension kriegerischer Stadtzerstörung und anschließenden Wiederaufbaus schuf die moderne Kriegsführung des Zweiten Weltkrieges, was sich an zahlreichen Beispielen aus Deutschland, Frankreich, Großbritannien, Finnland, Holland und Luxemburg eindeutig belegen lässt. Die Zusammenhänge zwischen stadtinternen Konflikten und stadtzerstörenden Strafaktionen der Stadtherren werden für mittelalterliche und frühneuzeitlichen Städte in der Lombardie, der Schweiz, in Polen, Dänemark und den Niederlanden untersucht. Zudem finden sich auch Beispiele zu stadtplanerischen Modernisierungen ohne primär kriegerischen Hintergrund.

Design has an increasingly high profile: figures like Philippe Starck are as venerated and well known as more traditional artists.
